NE42

NE22110

Richelieu is proud to announce a new offer of improved ironing board which compose the Contemporary line. These 4 models replace the 8 previous models in which we added storage space for the hot iron and in simplifying the codification making it easier to order !

A = Adjustable Swivel
NE = Non-electric

E = Electrical Features
42 = Board Size

- Few old models are still in stock, we suggest to make a showroom liquidation.
- Storage space for the iron is bigger to be suitable to most of iron size offered in the market. This implies a higher cabinet size passing from 47 7/8" to 52". All models have the same height from now on (except 4242100).
- All electric models have the same electrical box with spot light, timer and push button switch.
- All models have a bigger storage shelf, a clothes hanging bar, a roller catch and an unfinished maple veneer door mounted on piano hinge.
- Better packaging to protect the product during transport
- All models starting with A include a height adjustable swivel.
- All models without swivel are not adjustable in height
- Model NE22110 remains with same dimensions as the old model 421000, the only difference is the ironing board now made of ventilated steel instead of a wood board. That allows the board to dry the humidity caused by the iron faster.

Technical Information

| Old # | New # | Characteristics |
|----------|---------|--|
