

Pre Fab **PF TOE KICK**

PRODUCT DESCRIPTION

- PF Toe kick is an ADA approved product which replaces the traditional wood toe kick that is added to sink base cabinet doors allowing access for people with restricted mobility
- PF Toe kick is a pre-fabricated product that is sold in pairs (left & right) that can be easily attached to the bottom of the cabinet doors and still be adjustable.
- Made of strong, durable polystyrene material, PF Toe kick comes in white and can be customized (with paint, covered with vinyl toe base or laminated with HP 50 or V32 vertical grade plastic laminate)

APPLICATIONS

- Schools, hospitals and other medicinal facilities, nursing or retirement homes, restaurants, or any commercial building requiring sink access to all restricted mobility people.
- Use PF Toe kick in any situation where a wheeled cart or trash can needs to be stored behind a door but still be easily removed into the open.

ADVANTAGES & BENEFITS

- Economical, one less pair of very difficult toe kicks to build and finish.
- Quick installation, each pair comes complete with screws and instructions and can be installed by any one within minutes.
- Customize, can be painted, laminated or covered with vinyl base to match base toe kick of adjacent cabinetry.
- Adjustable, $\frac{1}{4}$ " (6.35mm) in height and width to reflect door gap and floor covering conditions after installation at job site.
- Durable, made from polystyrene which is also 100% waterproof.
- Flexible, can be installed in any size cabinet or in all flooring conditions.
- Available in two lengths, 36" (914.4mm) and 48" (1219.2mm) to accommodate various base cabinet sizes. The PF Toe kick length can be trimmed before installation.
- Available in two setbacks, both lengths are available in 2" (51mm) and 3" (76mm) setbacks.
- Professional, neat, clean and stronger than traditionally built toe kicks.
