

#19790

#1982G

This invisible support system for honeycomb panel is composed of:

- A black plastic adapter #19790 wich has to be inserted in the back of the honeycomb panel.
- A metallic support to be fixed on the wall #1982G. The panel will tehn be mounted on the support by sliding it on.

Perfect to install your decorative shelves, whithout any visible hardware!

For what type of panel?

- Honeycomb panel with a minimum inside height of 35mm (1 3/8")
- Maximum weight of 25kg per m<sup>2</sup> (5lbs/pi<sup>2</sup>) (based on a 300mm depth)
- Shelf minimum depth = 125mm (5")
- Recommended depth = 300mm (11 7/8")
- We strongly suggest to use one support at each 700mm(27 1/2") widthwise.

Code de produit	Description	Couleur
19790	HC Shelf Adapter	Black
1982G	HC Shelf Support	Zinc

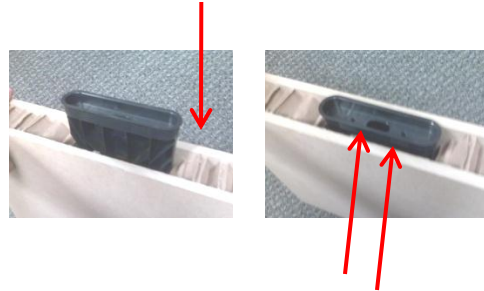

## Setup:

-Insert the adapter at the back of the panel, then slide it under the upper slot of the panel.  
 - No edgbanding required on the back.

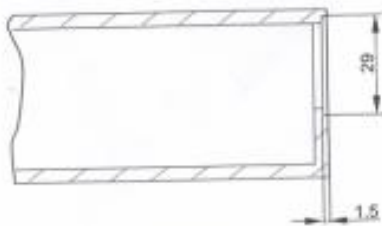

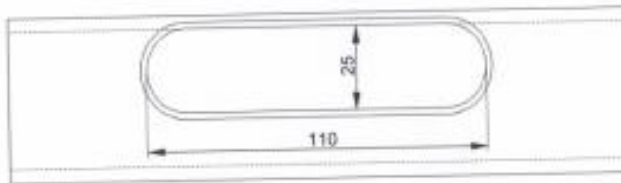

-For greater strength, inject PU-glue (#50130) in the holes provided for this purpose.

- Attach the support on the wall.

- Slide the shelf on the support until you reach the adapters.

Colle #50130

No edgbanding required
