

**Filtering Facepiece Respirators**  
3M™ Particulate Respirator 8200, N95

# Economical Respiratory Protection

## **An Economical Solution to Reduce Particulate Exposure**

The 8200 offers an economical choice to help reduce exposure to certain particles in a variety of applications.

# 3M™ Particulate Respirator 8200, N95

## An Economical Solution

The basic features and lightweight construction of this style respirator make it an economical choice for a variety of dusty applications over other respirators or masks.

### Product Features

- Two-strap design with dual point attachment helps provide a secure fit.
- Adjustable noseclip reduces eyewear fogging and helps ensure a better seal and fit.
- Lightweight construction enhances worker comfort and wear time.
- Patented filter media with advanced electrostatically charged microfibers help make breathing easier for enhanced user comfort.
- Meets NIOSH 42 CFR 84 N95 requirements. TC-84A-4271.

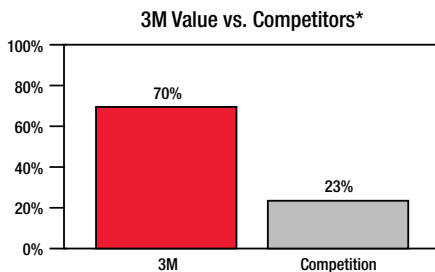

### Applications

- Bagging
- Grinding
- Sanding
- Sawing
- Sweeping
- Woodworking
- Other dusty applications

For additional information on 3M use recommendations for this class of respirators, please consult the 3M™ Respirator Selection Guide found at [www.3M.com/CA/occsafety](http://www.3M.com/CA/occsafety).

**Question:** Considering the quality of services provided by 3M/Competitor and 3M's/Competitor's prices, how would you rate the overall value of 3M's/Competitor's products and services?

\* Based on a research study done for 3M by Burke Inc. August 2004 of safety officers and users from 89 companies that use both 3M and competitive disposable respirators.

	UPC	SI #	Respirators/Box	Boxes/Case	Each/Case
<b>Particulate Respirator</b>					
8200, N95	5-00-51131-91913-1	70-0712-8805-7	20	8	160

### ⚠ WARNING

This respirator helps protect against certain particles. **Misuse may result in sickness or death.** For proper use, see supervisor or User Instructions or call 3M in the U.S.A. at 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414.

Each respirator must be properly selected based on the contaminant and concentration levels to which the worker is exposed. Particulate respirator 8200 may be used for exposures below 10X the occupational exposure limit or applicable government occupational exposure limits, whichever is lower.

Failure to follow the use and fitting instructions and warnings for proper use contained on the respirator packaging and/or failure to wear the respirator during all times of exposure can reduce respirator effectiveness and **may result in sickness or death.**
