

DECORATIVE BRICKS AND STONES

Our production techniques allow faithful reproduction of the textures and hues of stone and brick. The surface of the material contains real stone particles, sure to be the envy of your guests. Available in different styles, shapes, and colors, these stone and brick panels are sturdy and easy to install.

Extremely Lightweight but also durable !

An 9' x 16' wall of real bricks would weigh 6912 lbs

With our panels 202 lbs!

ADVANTAGES

- ⌚ North American Certification ASTM E 84-12 (class B)
- ⌚ Excellent thermal and acoustic insulation
- ⌚ Resist humidity (anti-mold) and fire rating
- ⌚ Easy to handle and transport
- ⌚ High resistance to most chemicals
- ⌚ Does not require maintenance
