

Ideal solution suspended cabinets

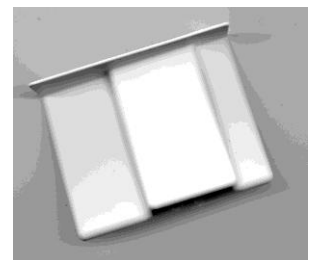

How can such a small bracket be able to support such a heavy load? Thanks to advanced technology, the result of our forty years' experience in researching solutions, the new 807 bracket possesses absolutely unique technical features: made totally in metal, it has a thickness of only 10mm, and offers an adjustment range of 19mm in the horizontal and 22mm in the vertical. Very easy to fit, through 4 small holes in the cabinet, it has a hooking system which prevents the cabinet from accidental falling from the wall. With Richelieu, your projects have more weight.
