

# WOOD - FINISHING

## BARE WOOD SANDING

Use Abranet P80 grit to sand the surface when a lot of material needs to be removed.

5" Disc	6" Disc	Grit
A9A232080	A9A241080	80

## WHITE WOOD SANDING

Use Abranet P100-P220 to give smooth and equal finish to the wood. This provides good adhesion to stain.

5" Disc	6" Disc	Grit
A9A232100	A9A241100	100
A9A232120	A9A241120	120
A9A232150	A9A241150	150
A9A232180	A9A241180	180
A9A232220	A9A241220	220

## SEALER SANDING

The P320 or P400 Abranet grains are used to create an equal surface before the final coating. Mirlon Total red should be used when manual sanding is required.

5" Disc	6" Disc	Grit
A9A232320	A9A241320	320
A9A232400	A9A241400	400

**RED MIRLON TOTAL: A18118447**

## ABRANET 3" X 4" (if you are using abrasive sheets instead of discs)

	Grit
