Panels and custom-made cabinet doors

Timeless matte finish, dazzling brilliance

Eleganté

The **Eleganté** collection offers panels with **gloss and ultramatt finishes**.

With its vast choice of colors, you can complete any residential or commercial project with style.

AN ASSORTMENT OF COMPLEMENTARY PRODUCTS AS YOU HAVE NEVER SEEN BEFORE

The **Eleganté** collection offers a complete range of custom-made cabinet doors, panels, laminates as well as solid color edgebanding in all our gloss and ultramatt finishes.

Our **Eleganté** panels are made of a MDF board on which a decorative paper is thermally fused to obtain excellent resistance to abrasion, mold and shocks.

A heated polyurethane **PU+** undercoat is applied to the surface to prevent cracking and delamination. Three layers, with a glossy or matte acrylic finish, are then heat applied and polymerized with UV rays to form a hard surface that is resistant to household cleaning products.

In addition to its resistance to UV rays and discoloration, the **Finguard** technology prevents the appearance of fingerprints on our **Eleganté** ultramatt panels.
