

3M Science.
Applied to Life.™

ONE spray gun, ultimate versatility.

Accuspray™ Spray Gun Vs. Metal Spray Gun

It's not metal, but it sure acts like it.

Our mission is to **take the pain OUT of painting** — that means cleaning and maintenance — and it's got to be done **without sacrificing performance**.

We added extra atomizing air holes to the new 1.2 mm and 1.3 mm atomizing heads to ensure you're getting the premium performance you would expect out of your metal guns, while making cleaning quick and easy with see through atomizing heads.

With five sizes of replaceable, interchangeable atomizing heads, Accuspray™ ONE Spray Gun is your ONE spray gun solution.

Heavy Body Coat

2.0 mm atomizing head is great for heavy body coating. Make spot repairs with gel coat, enamels and latex paints.

Medium Viscosity

1.8 mm atomizing head is great for medium viscosity coatings such as primers, lacquers and adhesives of all kinds. Spray in any direction, get into tight spaces and put the adhesive right where you want it, with the pattern you prefer.

Low Viscosity

1.4 mm atomizing head is great for lower viscosity coatings and achieving fine atomization such as lacquers, single stage paints, polyurethanes, automotive base and clear coats, and marine top coats.

Ultimate Versatility.

3M™ Accuspray™ ONE Spray Gun System with PPS™ (PN 16580)

- No maintenance kits
- Easy cleaning
- Performance of a brand new spray gun with each new atomizing head
- Spray gun requires 13CFM at 20 psi
