Extra Fast Dry

Super Moisture Resistant

Super Easy Sanding

### Magnalac® Primer/Undercoater (N/C) W350-10

- Our best general purpose primer
- Fast drying nitrocellulose lacquer primer
- Excellent sanding properties
- 50% solids for fast drying
- Excellent adhesion
- Provides good base coat on hard/softwoods
- Can be tinted to additional colors

Extra Fast Dry

Super Easy Sanding

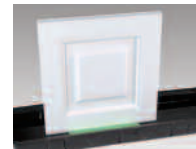

### MagnaClaw™ Primer (Pre-cat) W115-749

- Designed for use under pre-catalyzed finishes
- Excellent moisture resistance
- Fast drying
- Easy sanding
- Ready to apply – no measuring or mixing of catalyst
- Use on wood and MDF
- Provides holdout on porous surfaces, softwoods and untempered wood

Extra Fast Dry

Moisture Resistant

Super Easy Sanding

### WVP (White Vinyl Primer) W112-19

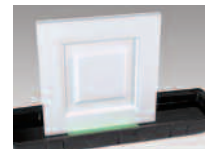

- Specialty product designed for thin coat application only
- Very good adhesion on wood
- Non-yellowing
- Fast drying
- Superior moisture resistance and stain blocking
- Can be topcoated with N/C, pre-cat and post-cat products
- Can be tinted to additional colors

Non-yellowing

Fast Dry

Moisture Resistant

### Level Primer White (Post-cat) W122529

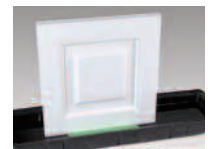

- Post-catalyzed amino-alkyd primer
- Easy sanding
- Excellent durability in a high build formula that requires fewer coats
- Use on wood and MDF exposed to moisture, heat and household chemicals
- Designed so that you can build past normal 5 mils maximum recommended

High Build

Super Easy Sanding

Moisture Resistant

### Agualente™ Stain Blocking Primer (Acrylic) W123859

- Water borne primer
- Non-yellowing
- Fast drying
- Easy sanding
- Unique all-acrylic polymer with built-in functionality to help prevent tannin/stain migration
- Ideal smooth base coat for water borne pigmented topcoats

Non-yellowing

Fast Dry

Super Easy Sanding
