Product Notes:

Chemetal offers cut-to-size pieces on all designs. Order minimums and charges apply. This may be especially helpful with #160, which is all steel and will not easily cut with woodworking equipment.

150 Series magnetics contain a layer of iron foil and can be cut, with woodworking equipment, with modifications. Learn more in the Tech Info Section at chemetal.com.

Want Dry Erase Laminate? InteriorArts, our hpl design laminate line, offers 2 cost-effective dry erase option, #1030 White Marker Board and #1031 Graph Marker Board. See them at ialaminates.com.
