

SURFACE SOLUTIONS FOR HEALTHCARE ENVIRONMENTS

Hallway | FRL® wall panels provide high-impact protection 13 times higher than rigid vinyl and substantially lower smoke and flame spread than other competitive products. With a wide range of colors available, you can also expand your creative vision with our in-house custom digital graphics. Ideal for wall murals, feature walls, headwalls, wayfinding and elevator cabs.

SURFACE SOLUTIONS FOR

Healthcare Environments

The Pionite Surface Systems story

How it all works together:

Multiple Surfaces. One System.

Our goal is to help bring your vision to reality without compromise. As your full surface solution provider, we are here to help navigate the many design and substrate options available to help you achieve your desired aesthetic, performance, and budgetary attributes for every project.

In virtually every area of today's healthcare facilities, Pionite has a surfacing solution to meet or exceed your requirements.

Inspire. Design. Heal.

At Pionite, we understand the positive impact good design has both mentally and physically. A well designed space can reduce stress, improve our well-being and help expedite the healing process. However, creating a comfortable, patient-oriented environment that is equally efficient as it is appealing is one of the key challenges in today's healthcare industry. That challenge is what motivates us to create the most relevant and forward-conscious color palettes and designs offered to help fulfill your vision for the project at hand.

The Healthcare Collection is a mix of traditional, transitional and contemporary designs with a blend of calming solids, abstracts, woodgrains and digital styles. They create a harmonious palette of surfacing options to allow design flexibility to help you achieve your vision.

Pionite brand of high pressure laminates caters to traditional tastes with an eye towards versatility. With over 230 patterns/colors plus a digital library and custom capabilities, our products are engineered to bring your vision to life by offering:

- Ease of maintenance
- Resistant to bacteria
- Impact resistance
- Resistance to scuffing and marring
- Durable
- Chemical resistance
- Class A flammability rating for many products

Patient Room | You can coordinate our HPL, TFL and FRL to create a calming, patient-oriented environment while assuring easy maintenance, functionality and long-lasting performance.

1 HPL High Pressure Laminate

Among our most versatile surfaces which is strong and durable, yet flexible and easy to fabricate. It makes a great choice for a range of interior horizontal and vertical applications where an attractive, yet resilient, surface solution is required.

2 FRL® Wall Protection Panels

Uses fire rated, proprietary fiberglass technology to fortify wall panels against impact damage and excessive wear-and-tear offering exceptional cleanability. FRL® is the ideal wall panel for high-traffic environments that need to be aesthetically pleasing and easy to maintain.

3 TFL Thermally Fused Laminate

Coordinates with our HPL, offering trend forward designs while delivering unparalleled durability and savings you deserve.

4 ChemGuard HPL

Provides the decorative features of our stylish high pressure laminates with chemical resistant properties that protect against acids and other caustic compounds.

5 ThickLam™ HPL

Designed for applications where the decorative surface must contribute to the structural stability of the finished assembly and available with decorative paper on one or both sides.

6 Fire Rated HPL

Possesses all the same style and performance features as our standard laminates with additional protection against combustion and smoke.

7 FRP Fiberglass Reinforced Plastic

Strong, impact and stain resistant composite material that is an ideal surface for high-use commercial settings and service areas that depend on sanitary conditions.

8 Marker Board

Provides a nonabsorbent, dry erase compatible surface suitable for a variety of applications in hospitals, clinics, conference rooms and more.

Lab | ThickLam™ laminate with ChemGuard, offers unparalleled protection of lab countertops with chemical resistant properties throughout its thickness. Combined with Panolam's FRP, you have the durability for high-use settings and service areas that depend on sanitary conditions.
