

**Flush when closed, completely open.**

**Hardware for bi-folding cabinet pocket doors up to 25 kg (55 lbs.) per door.**

## Description

Flush cabinet fronts can be fully opened with HAWA-Folding Concepta 25. Two doors can be folded and slid into furniture cabinets or wall niches at either the side. Systems with one pair of folding doors at both sides can be realized without separating walls using the optional reinforcement profile. Sets with a track length of 2120 mm also make 3-door cabinet fronts possible in combination with HAWA-Concepta.

## Applications

Its advantages are obvious wherever variable room utilisation and unobstructed access should leave a tidy impression, for instance in the home office in the bedroom, the kitchen in the living room, or the utility area in the bathroom.

## Features of the HAWA-Folding Concepta 25

- Max. door weight: 25kg (55lbs.) [per pair of panels 50kg (110lbs.)]
- Door width: 300–700 mm ( $11\frac{13}{16}$ "– $2'3\frac{9}{16}$ " )
- Door height: 1250–2600 mm ( $4'1\frac{7}{32}$ "– $8'6\frac{3}{8}$ " )
- Door thickness: 19–26 mm ( $\frac{3}{4}$ "– $1\frac{1}{32}$ " )
- Concealed hinge with soft closing mechanism
- Flush-fitting fronts with the gap pattern that is normal in furniture construction make discreet integration into the overall appearance possible
- Harmonious, quiet movement due to playfree guidance of the upright
- Sheer elegance outside and in due to black anodized profiles
- Two-piece, four-piece and, in combination with HAWA-Concepta, three-piece fronts are also possible
- The pair of folding doors can be slid in flush with the outside
- Room-high without furniture tops provides an extraordinary, spacious appearance
- All adjustments can be made from the front at any time
- LGA certificate

## Calculation hardware depth

T2	TH	E2
≤ 680 mm ( $26'0\frac{49}{64}$ " )	1250–1850 mm ( $4'1\frac{7}{16}$ "– $6'0\frac{27}{32}$ " )	≤ 607 mm ( $23'0\frac{57}{64}$ " )
≤ 680 mm ( $26'0\frac{49}{64}$ " )	1851–2600 mm ( $6'0\frac{7}{8}$ "–( $8'6\frac{3}{8}$ " )	≤ 607 mm ( $23'0\frac{57}{64}$ " )

Subject to modification. Metric specifications are exact. Inches are approximate.

## Design options

Different projects can be realized with different structural versions. Not only walk-in closets or niches which extend from floor to ceiling but also half-height solutions are possible from the worktop to the ceiling. The large area that can be covered is impressive. In this way, three-door fronts with an opening width of 2100 mm and 2800 mm wide fronts with two pairs of folding doors can be opened and accommodated in the depth of the furniture in combination with HAWA-Concepta.

## Aesthetics

Important requirements in modern architecture such as room-high, flush-fitting and walk-in can be easily realized with HAWA-Folding Concepta 25.

Sheer elegance – outside and in, made possible by the black anodized profiles. These incorporate themselves discreetly into the furniture. For more design freedom in high-quality furniture, without design compromises.

	Hex key, 3 mm ( $\frac{1}{8}$ " ), with handle	1	1	1	1	13164

## Base profile and centering

			mm/inch	code
	Base profile complete including cover cap, leading ramp and drilling jig	alu plain anodized	1300 (4'3 $\frac{3}{16}$ " )	24004
			2000 (6'6 $\frac{3}{4}$ " )	25481
		alu black anodized	1300 (4'3 $\frac{3}{16}$ " )	25479
			2000 (6'6 $\frac{3}{4}$ " )	25480
	Magnetic centering part, alu plain anodized, including drilling jig			24006

## Door positioning / door centering

The base profile is the ideal complement to the HAWA-Folding Concepta 25. The leading ramp included in the set brings the overlaying cabinet front flush into position. Doors on recess designs or walk-in cabinets without a cabinet base are centered by magnetic centering parts no. 24006.

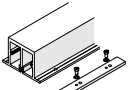

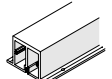

Flush door positioning with base profile and leading ramp

Flush door positioning with magnetic centering parts

## Reinforcement profile / Connection plate

		mm/inch	code
	Reinforcement profile incl. top track connection plate, alu plain anodized, predrilled	2600 (8'6 $\frac{1}{8}$ " )	24322
	Reinforcement profile, alu plain anodized, predrilled	cut to size	24281
	Top track connection plate, alu plain anodized, predrilled		24321

## Reinforcement profile / Connection plate

Thanks to the optionally available profile for reinforcing the cabinet top, three and four door systems without separating walls can be realized.

Profile, pre assembled

Profile can be fitted retro-spectively from below

Custom solution

## Three-door cabinet fronts

The sets with 2120 mm long running tracks make it possible to combine HAWA-Folding Concepta and HAWA-Concepta. This means that nothing stands in the way of 3-door systems without separating walls.

## Four-door cabinet fronts

4-door cabinets without separating walls can be realized with a HAWA-Folding Concepta on the left and the right. This makes opening widths of up to 2800 mm possible without separating walls.

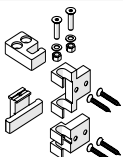

Subject to modification. Metric specifications are exact. Inches are approximate.

## Aligner

The alignment hardware makes it easy to stabilise and adjust the folding/slide-in doors. At least two hardware sets are recommended for each door and can be shortened as required.

## Lock catch for espagnolette lock TERZA

		code
	Lock catch and bracket for espagnolette lock TERZA, 2 pieces for 1 pair of folding doors	24005
<ul style="list-style-type: none"><li>• For cabinet designs without a ceiling connection</li><li>• Lock catch for espagnolette lock TERZA 3017 to be ordered by the building owner. (<a href="http://www.heusser-schloss.ch">www.heusser-schloss.ch</a>)</li></ul>		

## Lock catch for espagnolette lock

The lock catch from Hawa and the commercially available espagnolette lock TERZA 3017 from Heusser make cabinet fronts lockable.

## Assembly simplification features

The corpus and side connection profiles included in the HAWA-Folding Concepta 25 set make it easier to design cabinet bodies with overlaying cabinet fronts. The top track and base profile also make for easier installation as they are fitted to the cabinet corpus from the front. They can also be fitted retrospectively across a number of previously installed cabinet corpus.

## Door handle / door position

Commercially available bow handles enable convenient, one handed operation of folding/slide-in doors. The folding door pair can be pushed in fully flush with the external side.

The alu profile between the bi-folded door pair discreetly conceals the strap hinges

## Installation tip

The cabinet must be levelled and anchored to the building to achieve the best possible functionality and operating convenience.

## Order specifications

- Type and quantity of HAWA-Concepta sets
