

This drawer latch locks the inner top drawer when you open the door. A simple touch on the top of the latch releases the top drawer to give access to the bottom one.

## Advantages

- Easy assembly (only 2 screws)
- Adaptable to all existing inner drawer systems having a front panel from 10 to 19mm thickness. (vs 10 to 16mm for the old version **502595100**).
- Torsion resistant
- Low profile design allows to adapt to all standard drawer systems
- Trendy Orion grey color
