

Tilting waste bin designed for wall fixing or integration inside a narrow cabinet

Application

- Vanity

Advantages

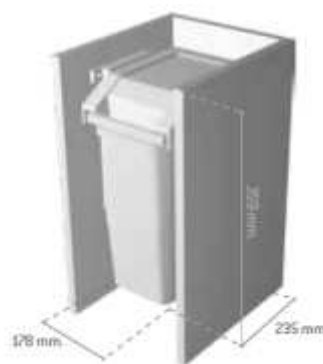

- Compact construction with large 8 liters bin
- Wall mounting simplifies bathroom cleaning
- Discrete cabinet insertion positioning keeps a bathroom tidy
- Opened by tilting forward, this simple movement is also used for removing the bin to clean or empty
- Simple screw assembly
- German design and 10 year guarantee

Description

WALL AND CABINET WASTE BIN

Tilting waste bin designed for wall fixing or integration inside a narrow cabinet. The fixing can be on the rear or on the side – left or right-. The waste bin can be fixed easily onto the wall, including at practical hip height, as well as fitted into a cabinet behind a door. The unit is very compact and slim enough to allow for further storage alongside, even in very narrow cabinets. The sturdy construction is easy to assemble and to install and can be removed easily for cleaning.
