▶ Description

UNIVERSAL DRAWER ORGANISER FRAME

Versatile helper to organize the space in your drawers. The possibility to adjust the frame in depth and width and the optimal height of the container allow for rational organization of your drawer space. The 120mm high side walls can hold unshapely packs, as well as hinder the tipping over and moving of bulky goods and tall items. The combination of several frames, depending on the width of your drawers ensures perfect order in your kitchen and easy access to your items.
