This could result in the unit to fall, Product failure and personal injury.

Operation

Storage Weight Adjustment Lever

Pulling out and pushing in the storage rack

Open the Cabinet doors.

(Open the Cabinet doors as wide as possible.)

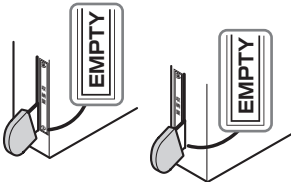

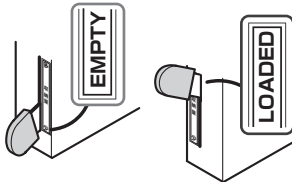

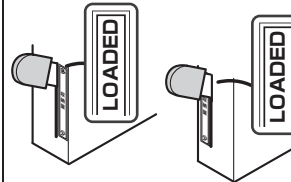

Grab the handle and slowly pull straight down or push straight up.

※The storage rack might not come all the way down if it is lightly loaded; as a result, if it is let go, it might rebound up.

Pushing up and pulling down the storage rack easily

Adjust the levers that are located on both sides, depending on how much the storage rack is loaded.

※When the storage compartment is lowered all the way down, the storage weight adjustment levers cannot be adjusted. Be sure to operate them when the storage rack is fully stored away.

Storage load estimates	Light	Middle	Heavy
	0~5kg	5~10kg	10~16kg
Positioning of the storage weight adjustment levers	Position both levers to EMPTY . 	Position either one of the levers to EMPTY . 	Position both levers to LOADED . 

Cleaning and Care

- When cleaning the unit, wipe with a sponge soaked in diluted dishwashing detergent.

(Avoid using alkaline cleaners or acidic cleaners.)

- ※Do not use any harsh chemicals powder cleansers, paint thinners, or benzine.

If used, the surface of the product might be scratched or degraded, or become discolored.
