## CONFIGURATION E ROD APPLICATION

**ART. 678446-100/060**

**ART. 678538-100/060**

**ART. 678447-100/060**

**Lateral Rod Support:** art. 678446-100/060  
**Central Rod Support:** art. 678447-100/060  
**Rod** : art. 678538-100/060

To fix Rod Support to the shelf,  
the suggestion is to use:

M5x22mm screws for 16mm th. shelf  
M5x25mm screws for 19mm th. shelf  
M5x30mm screws for 25mm th. shelf

Screws not included.

*\*= variance in screw length of +/- 1 mm,  
is acceptable*

What to **CONSIDER** to determinate the rod cut:

for Aesthetic Reason: **6 mm ( 15/64")** gap to side panel

Overall of each support (lateral/ central) : **14mm (35/64")**

*Example:*

*rod= 1000mm / 39 3/8"*

*panel width= 800mm / 31 1/2"*

*Rod cut= 1000-200= 800(panel width) -6-6-14-14= 760mm / 29 59/64"*
