

These practical accessories enhance the "Wall-Out" line.

Application

- Residential
- Hotels
- Recreative vehicles
- Etc

Advantages

- The **Wall-Out** system components allow to create a complete closet in a narrow space for your clothes storage.
- In adding these clever accessories, you can store your shoes and your hats and get access to them in a fingertip at the same place as your clothes.
- The clever design of the shoe and hat racks makes in sort that they can accept any type or any size of shoes and hats.
- 2 shoe racks models available : screw-on frame with 5 rows # **52535100** that can store up to 15 pairs of shoes and a bottom mount shoe rack with 1 row # **52536100** that can store 3 pairs of shoes.
- 2 models of hat rack : Rack for small hats # **53527100** and one for larger hats # **53528100**.

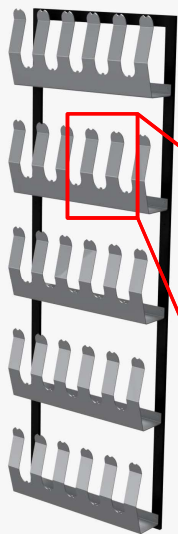

Description

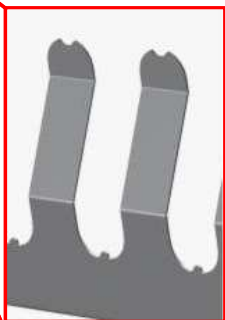

"WALL-OUT" : the storage revolution.

Is a unique system that saves valuable space and gives a better view to all your clothes, whatever we are talking of a Walk-in, small closet or any structure that can accept that easy to mount system. You can fix it on a wall, on a door or in an existing cabinet. Useful at home, hotels, recreative vehicles, office as few places. Perfect for people with limited mobility and in a rolling chair. This system is not an alternative to storage, it is simply a new way to hang clothes.
