with Push to open Kit as an option

Double wastebin pull out shown without PTO kit. Champagne frame and bins

PTO kit shown in champagne.

Champagne bin
36Qt and 52 Qt

This version of the K-wastebin (K-Wastebin II) enables to pair effectively with our new Push-to-Open kit. Available in single or double bin unit champagne frames and 2 bin capacities 36 Qt and 52Qt (34.1l and 49.2l) in champagne color

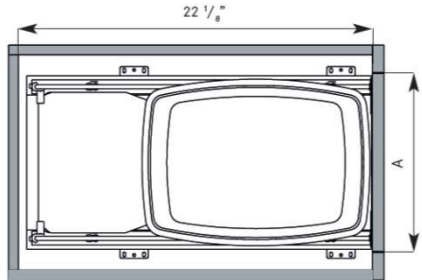

Advantages

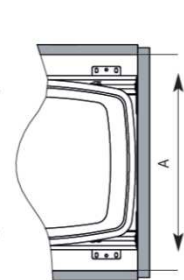

- Can be equipped with a push to open device (PTO), as an option, for hands' free opening and access. A light touch on the door activates the opening device. PTO kit available in champagne.
- Stronger frame that keeps bins in place during opening and closing, and that reduces the door flex.
- Frame available in champagne.
- Easy mounting on the bottom of the cabinet with only 8 screws.
- Simple 3-way adjustment for the complete unit.
- Suitable for cabinets with overlay or inset doors.
- Full extension undermount slides equipped with a soft closing device (soft close strength lowered when used with PTO kit).
- Offered in single bin version or double bin configuration, bins sold separately.
- Bins of 36 Qt and 52 Qt are available in champagne.
- Click Fixx assembly and door template make installation easy.
- Load capacity of max 100 lbs (44.5kg).
