

PANELS, EDGEBOARDING, LAMINATES AND CUSTOM DOORS

Our Elegaté panels are made of MDF panels coated in a decorative paper by thermal fusion, in order to obtain superior protection against abrasion, moisture and impact. A warm undercoat of our polyurethane PU+ is applied to the surface to prevent cracking and delamination. Three acrylic coats, with gloss or ultramatt finish, are then applied with heat and polymerized with UV rays, producing a hardened surface resistant to household products.

MODERN TECHNOLOGY

Interior vertical use only
HPL for horizontal applications

Commercial and residential

- Wall / Pillar cladding
- Casework (kitchens, closets, bookcases)
- Commercial buildouts (offices)

PANELS

- MDF core
- 48" x 108" x 18 mm (also available in 16 mm)
- Easy to cut and to machineable
- Impact-resistant
- Scratch-resistant
- No yellowing effect
- Antibacterial
- Easy to clean and maintain
- Finguard technology prevents the appearance of fingerprints on the surface.
- Great variety of assorted colors and patterns available : 6 gloss and 11 ultramatt.

EDGEBOARDING

- Agenced
- 23 mm

LAMINATES

- 48" x 120"
- 0.7 mm

DOOR PROGRAM

- Slab doors
