

## Designed To Create Stunning Interiors

Panels | Edgebanding | Laminates | Custom Doors

### Lacquered

Our Eleganté panels are made of a MDF board on which a decorative paper is thermally fused to obtain excellent resistance to abrasion, mold and shocks. The collection offers a complete range of custom-made cabinet doors, panels, laminates as well as solid color edgebanding in all our glossy and matte finishes. This collection is stocked in **5 Ultra Gloss** and **5 Super Matte**.

#### Panels 49"x109"x 18 mm

- MDF Core
- A heated polyurethane PU+ undercoat is applied to the surface to prevent cracking and delamination
- Peel Coat on faces to prevent scratching before installation

#### Door Program

- Slab Doors

#### Edgebanding

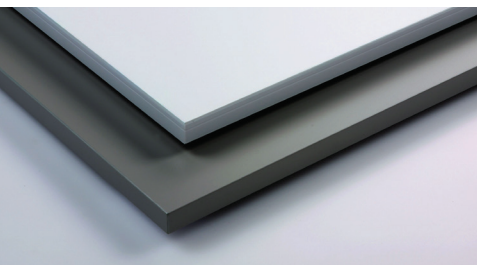

- Monochrome
- 3D two-toned

### Selling Features:

- Three layers, with a glossy or matte acrylic finish
- Resistance to UV rays and discoloration
- Finguard technology prevents the appearance of fingerprints on supermatte panels and laminate sheets.
