

Designed To Create Stunning Interiors

Panels | High Pressure Laminates (HPL) | Edgebanding | Custom Doors

Thermo Structured Surfaces (TSS)

A leader in modern texture / design, shrinking the gap between what's natural and engineered. As well, their panels have craft paper underlays and are pressed at high pressure for a finish with a comparable scratch resistance to a vertical grade high pressure laminate. This collection is stocked in **4 Abstract Patterns** and **25 Wood Grains**.

Panels 81 1/2"x110 1/2"x 19 mm Door Program

- Particle Board Core
- TSS (Thermo Structure Surface)
