

Pivoting waste bin MONO Graphite

MONO pivoting waste bin swings out automatically with the door opening. Thanks to its door follower mechanism. Ideal for under sink cabinet.

Application

- Under sink cabinet

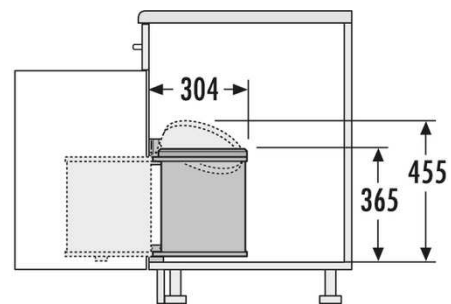

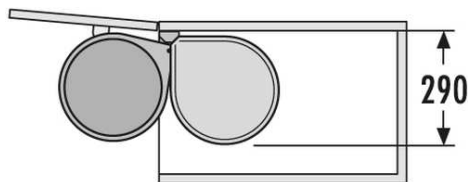

Advantages

- Can be installed on the left or right side of cabinet
- Equipped with a door follower mechanism, the bin swings out automatically when opening the door
- The lid remains inside the cabinet at an angle and closes back over the bin when the door is shut.
- Trendy Graphite finish with black lid and base
- 15 liters (3,96 Qt) bin capacity.
- The bin has a chrome handle for easy handling
- Complete with hardware, instructions and drilling template
- Easy installation within few minutes.

Description

Richelieu offers this compact pivoting waste bin of 15L (3,96 Qt) capacity for hinged door application in a trendy **Graphite** finish. Ideal for under-sink cabinet. Can work with regular or "soft-close" 95° max opening hinges (sold separately). The lid remains inside the cabinet at an angle and closes back over the bin when the door is shut
