

LIBERO 3.0

SMART ELECTRONIC DOOR-OPENER

Smart Sensor-Opener,
also with optional
voice activation!

SMART HOME

The Libero 3.0 for front-mount doors and drawers offers automatic, comfortable hands-free opening of all waste-recycling systems with attached door panel and of any common drawer-mounted systems, with or without damper.

Easy operation by new laser sensor and/or optional voice activation.

ADVANTAGES AND BENEFITS

- Hands-free opening system
- Foot-activated laser sensor
- Optional voice activated "smart" feature compatible with Amazon's ALEXA

LIBERO 3.0 SMART ELECTRONIC DOOR-OPENER

LIBERO 3.0 FOR PULL-OUT SYSTEMS OF ALL KINDS

- This "plug & play" system mounts at the bottom front edge of the cabinet and only requires plugging into a standard 110 V outlet. Easy to install, it can also be retrofitted
- It is mainly used with our popular waste management systems in a frameless cabinet application but can also be used for deep drawers
- An integrated LED light indicates the laser position
- To open the door, simply move your foot up towards the LED light under the kickplate. The device will push open the door and allow full hands-free access to the cabinet
- It also works with waste bins equipped with soft-close runners
- Last but not least, Libero 3.0 is compatible with **Smart Homes** using **ALEXA** for the voice-activated feature
- All Libero settings can be easily adjusted via web browsers
