Compact and versatile LED for drawers and pull-out baskets

Hiddi is a LED with symmetrical light projection, recommended for use in cabinets with pull-out elements or with lift-up doors. Integrates an infrared sensor that switches the light on and off with easy installation to the side of the cabinet using a sliding bracket.

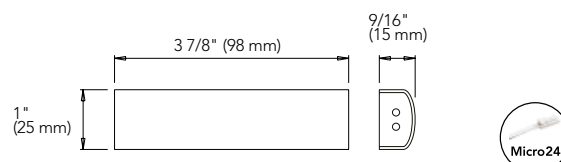

ADVANTAGES AND BENEFITS

- Module with 28 LEDs for 180° full light diffusion
- Quick-connect to the light body with a removable 78 3/4" (2 m) power cable
- Integrated infrared sensor automatically switches it on and off when the cabinet is opened and closed
- Adhesive cable ducts for simple wire management 7 7/8" (200 mm)
- Can be installed on the sides of the cabinet frame, using a sliding bracket that hides the fixing screws

TECHNICAL SPECS

- Tension: 24 V dc
- Mounting: surface
- Width: 3 7/8" (98 mm)
- Height: 1" (25 mm)
- Thickness: 9/16" (15 mm)
- Color Rendering Index: CRI 80
- Luminous flux: (sw/ww) 240, (nw) 255 lm
- Luminous efficiency: (sw/ww) 80, (nw) 85 lm/W

No.	Watts	Color temperature (K)
26400202412030	3 W	2700 super warm white
26400602412230	3 W	3000 warm white
26400102412430	3 W	3900 neutral white

Included: drawer light, 78 3/4" (2 m) power cable with Micro24 connector, 7 7/8" (200 mm) cable duct (x2), sliding mounting bracket, fasteners.
