

BIDIRECTIONAL DRAWER HARDWARE **RIVERSO**

ADD A MAGIC
TOUCH TO YOUR
DRAWERS!

A completely new way of using space

A revolutionary sliding system that allows drawers to open from both sides.

ADVANTAGES & BENEFITS

- The same drawer content is accessible from both sides
- Riverso saves steps, reduces unnecessary movement and improves a room's flow by allowing the same drawer to open in opposite directions
- Creates for a more functional space
- Silent and smooth closing, thanks to the integrated soft closing mechanism. Plus, 3D adjustment for perfect drawer alignment
- Riverso combines German and Swiss technology to create superb innovation in drawer usage

BIDIRECTIONAL DRAWER HARDWARE **RIVERSO**

RESOURCES

Request the Riverso interactive guide to make installation easy.

AN INGENUOUS REVOLUTION

- Riverso combines the best features of a concealed slide to offer a stable, fluid movement
- Features a high technology full-extension slide system and up to 100 lb (46 kg) load capacity
- Optional push-open hardware creates a sleek, handleless drawer front on one side

APPLICATIONS

Riverso is perfect for use as a kitchen island, shop counter, in laboratories, doctor's offices, beauty studios, senior living communities and much more.
