

1532
Pocket Door System

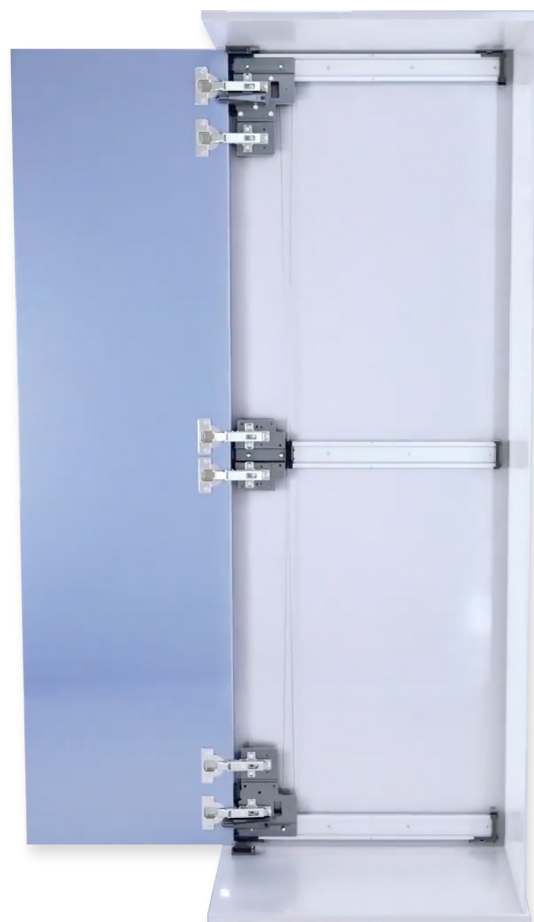

Easy-Install Track System for Pocket Doors

The Accuride 1532 Pocket Door System is unrivaled in its design. Engineered for all-around excellence, this system uses a cassette that glides along a precision track to give your pocket door the most refined movement possible. The 1532 is easy to install, opens and closes gently, and fits pocketdoors of nearly all styles and sizes. Make product selection simple with only two essential parameters: door height and thickness!

*Elevate Your Pocket Door Experience with the 1532:
Unmatched Benefits, Unrivaled Choice.*

Benefits include:

- Soft-close design
- Hassle-free installation
- Anti-rack cable system

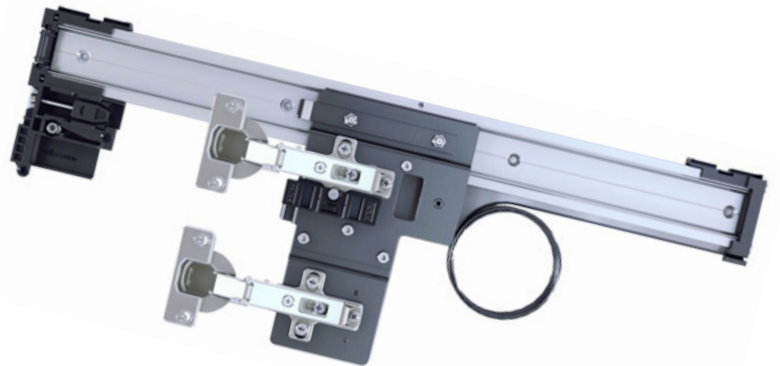

1532 shown on large application

Slide Features:

- A rack-eliminating cable system ensures smooth movement for doors over 9ft. tall!
- Each system includes a 39-inch track you can cut to your cabinet's depth.
- A simple design means you can install the 1532 system quickly and headache-free.
- Special hinges mean your pocket doors close as softly and elegantly as they open.
