

## NATURE-INSPIRED EDGEBANDING HPL LAMINATES PANELS

Give a modern touch to your designs while combining the richness, warmth and depth of natural woodgrains with Merino's ultramatt or high gloss surface technology. Our brand-new Essence collection brings you a selection of patterns from warm classic woodgrain to linear exotic woods. For a contrasting but balanced look, combine it with the neutral colors offered from Eléganté's expanded collection of UV-lacquered MDF panels. You can still benefit from a complete program, which includes matching laminate sheets and edgbanding.
