

Versatile slide designed for wooden and OPTIMIZ-R metal drawers.

The power of a single touch!

The MOMENTUM Push-to-Open Slide allows for easy opening by simply pushing the drawer front. This unique slide design eliminates the need for handles or knobs, providing a sleek and modern aesthetic for furniture and cabinetry.

The spring-loaded mechanism means a gentle push on the door activates the slide, causing it to glide open smoothly. Push-to-open slides are prevalent in contemporary interior design as a minimalist and user-friendly solution. This innovative hardware is practical and enhances the overall look and functionality of furniture in many settings.
