

*Protect your under-sink surface from water damage and deposits!*

*The concavities on the surface allow to collect up to 6L of liquid per square meter (0.56L per square foot) !*

### Product description

**Aveo** is a mat that protects against leakage and spillage of liquids that can occur in the under-sink area or the vanity.

Each sheet is designed according to a **unique and patented process**. Its surface consist of **hundreds of small concavities that can collect up to 6L of liquid per square meter (0.56L per square foot)**.

These sheets are made from a **combination of polystyrene and plastic** which make them **rigid, resistant to chemicals and easy to clean**.

### Specifications & Benefits

- **Unique & Patented Design:** the concavities in the surface can collect up to 6L per m<sup>2</sup> (0.56 L per square foot).
- Charcoal grey bottom covered with a sheet of stainless steel which add to its rigidity. **These finishes blend perfectly with any cabinet interior or drawer.**
- **Each sheet has a thickness of 2 mm.** The plastic/polystyrene material insures **durability and ease of maintenance.**
- Each sheet measures 1150 x 625 mm (45-1/4" x 24-9/16") and **can be cut to size for greater flexibility of use.**
- **Gaskets are insuring a perfect seal and added protection against mold and moisture.** These gaskets are thin and discreet, remaining almost invisible when installed.
- **Available in sets of 5 sheets and 10 gaskets or in bulk (single sheet alone and gasket alone)**
