

600mm version

450mm version

Combining 1to5, our recycling center system to insert into a drawer, with the Servo-Drive mechanism, you gain the electric assistance for the door opening of your cabinet. A light pressure is enough to get the door open as per magic and then help you with the waste management.

Advantages and benefits

- ✓ Available for 450mm and 600mm cabinet exterior width
- ✓ Solution available for 16mm (5/8") or 19mm (3/4") side gables.
- ✓ Can be installed on Tandembbox drawers, Intivo or Intivo gallery.
- ✓ Installation template included
- ✓ Requires a wooden back of 16mm thick to be made by the customer.
- ✓ In case of power failure, the slides keep their functionality.
- ✓ It is recommended to use a full height door. If you wish to install a drawer above the waste bin, we recommend an inner drawer to make it easy to remove the bins.
- ✓ Delivered with an internal fixed lid.
- ✓ Load capacity will be the one of the slides.
