

RANGE HOODS

STAINLESS STEEL | WOOD | ACCESSORIES

CHOOSING A RANGE HOOD

WHAT YOU SHOULD KNOW:

WALL-MOUNTED, ISLAND HOODS OR CANOPY HOODS

Wall-mounted hoods are simply installed on the wall above the cooking surface. **Island hoods** are installed on the ceiling above the cooking surface. **Canopy hoods** are installed in between two upper cabinets.

CHIMNEY HOODS OR BUILT-IN HOODS

Chimney hoods include the decorative hood, the chimney structure and the vent motor, available in several models and sizes.

Built-in hoods include a motor which can be embedded in a decorative hood (notably those made of wood) or in an upper kitchen cabinet. Its suction performance will depend on the dimensions of the decorative hood or upper cabinet.

EXTERIOR VENTING OR NON-DUCTED

In **exterior venting arrangements**, the motor is surrounded by a non-flammable enclosure which is attached to an external outlet. The air is sucked in and discharged outside of the house. For optimal operation, it is recommended to have as few bends as possible in the duct leading outside.

Non-ducted models require no external exhaust duct assembly, as the air is recycled into the room through a metallic filter that retains grease and a charcoal filter that purifies the air. Once the odor is removed, air is released into the room. Ideal for apartments.

POWER

Ideally, the air volume in a kitchen should be refreshed at least 10 times an hour.

These calculations are only indicative.

- Room surface in m² x room height = X m³
- Room surface in ft² x room height = X ft³
- Room volume in m³ x 10 = the minimum air flow required (m³/h)
- (Room volume in ft³ x 10) ÷ 60 = air flow required in CFM

As a rule, you should choose a hood with a higher capacity than what you need, because it has the advantage of running the motor at low speed with greater efficiency and less noise.

NOISE

Range hood noise levels are given in sones. Look for the lowest sone number to get the quietest unit. Make sure the hood is well attached to its supporting structure, as a significant portion of noise can come from vibrations resulting from an inadequate attachment of the hood.

FILTER

Most hoods are equipped with a dishwasher-safe metal filter that captures airborne grease particles. It is recommended that they be regularly cleaned (once a month at least), as accumulated grease is highly flammable. Charcoal filters are designed to purify the air. They are essential when the hood is non ducted. It is important to change filters regularly, depending on use.

LIGHTING

As the hood is located above your cooking area, select a model with adequate lighting. Higher-end models come with halogen lamps (for maximum brightness and energy conservation). Value models will be equipped with incandescent light bulbs.

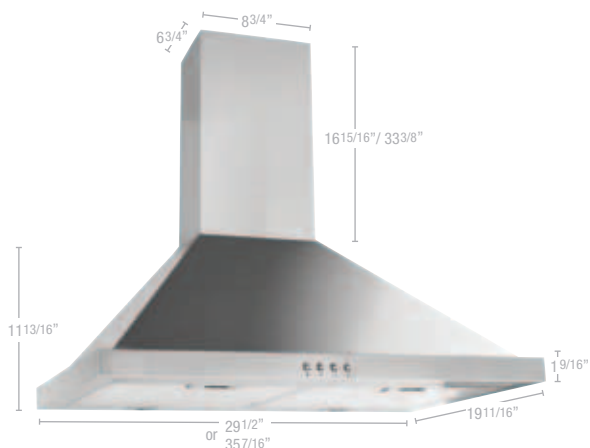

VARIABLE SPEED CONTROL

A variable speed control (using push buttons or electronic controls) will allow you to adjust the ventilation speed to the type of cooking.

PYRAMIDAL WALL-MOUNTED HOOD

STAINLESS STEEL

No.	Description	Noise level (sones)
52030170	30" pyramidal wall-mounted hood 450 CFM	1 (min. speed) 6.0 (max. speed)
52930170	30" pyramidal wall-mounted hood 292 CFM	1 (min. speed) 4.5 (max. speed)

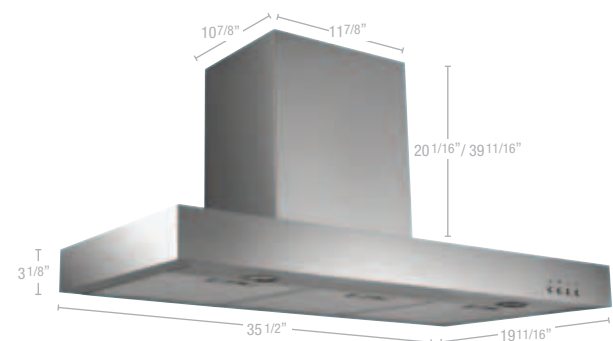

Push button, incandescent bulbs

No.	Description	Noise level (sones)
52530170	30" pyramidal wall-mounted hood 600 CFM	1.5 (min. speed) 7.5 (max. speed)
52536170	36" pyramidal wall-mounted hood 600 CFM	1.5 (min. speed) 7.5 (max. speed)

Electronic control, halogen bulbs

RECTANGULAR WALL-MOUNTED HOOD

STAINLESS STEEL

No.	Description	Noise level (sones)
53036170	36" rectangular wall-mounted hood 600 CFM	1.5 (min. speed) 7.5 (max. speed)

Electronic control

* See page 15 for accessory compatibility table

VALUE-ADDED FEATURES

- 3-speed adjustment
- Time delay for the electronic control version **ONLY**
- Power module of 450 CFM or 600 CFM
- 2 halogen bulbs or incandescent bulbs (included)
- 4-layer aluminum filter included, dishwasher-safe
- Fits ceiling up to 9' (2.75 m) high when installed 30" (762 mm) from cooking surface
- Can fit to ceiling up to 10' (3.05 m) high, adding chimney extension **No. 50130170**, sold separately
- UL 110V certified
- Made of grade 430 stainless steel

SUGGESTED PRODUCTS*

No.	Description
50130170	Chimney extension

Rear venting

No.	Description	Noise level (sones)
55030170	30" under-cabinet canopy hood 450 CFM	1.5 (min. speed) 6.5 (max. speed)

Electronic control

VALUE-ADDED FEATURES

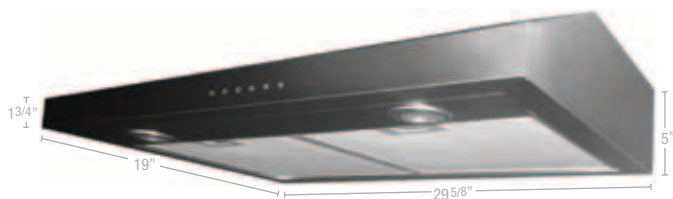

- 3-speed adjustment with time delay
- Power module of 450 CFM
- 2 halogen bulbs included
- 4-layer aluminum filter included, dishwasher-safe
- This model provides a top or rear ventilation
- Round or rectangular exhaust adaptor (both included)
- cULus certified
- Made of grade 430 stainless steel
- **Cannot be converted to recycling mode system**

SUGGESTED PRODUCTS*

No.	Description
55002100	Filter for hood No. 55030170

UNDER-CABINET HOOD

STAINLESS STEEL

No.	Description	Noise level (sones)
55630170	30" under-cabinet hood 300 CFM	1.5 (min. speed) 6.5 (max. speed)

Electronic control

VALUE-ADDED FEATURES

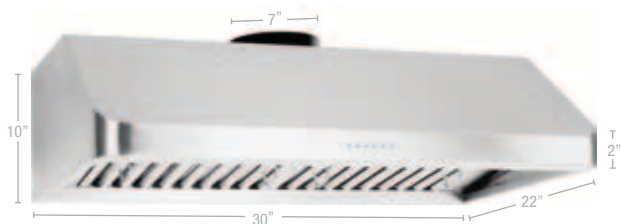

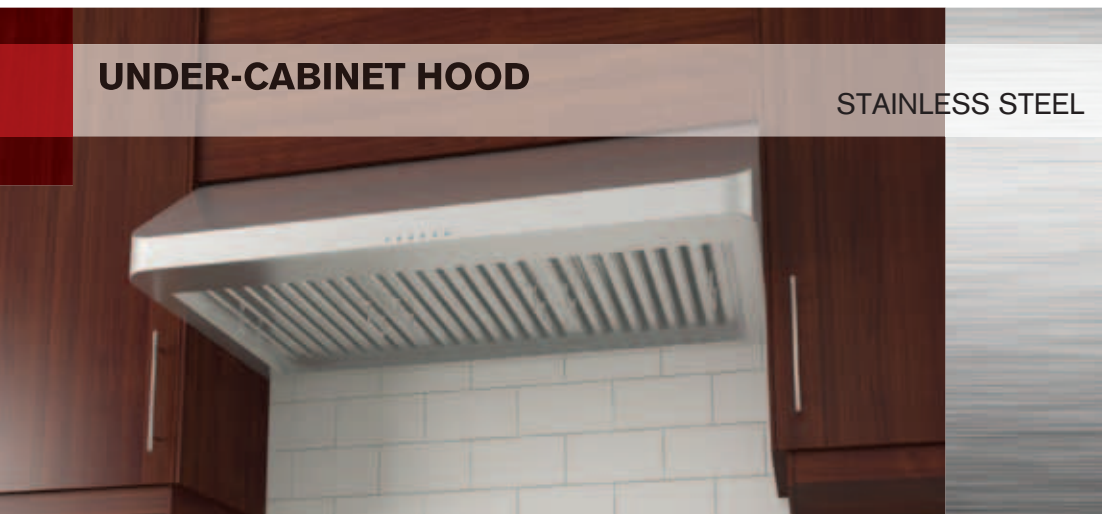

- 5" slim model
- Electronic 4-speed adjustment with time delay
- Power module of 300 CFM
- 2 halogen bulbs included
- 4-layer aluminum filter included, dishwasher-safe
- UL 110V certified
- Made of an easy-to-clean corrosion-resistant stainless steel
- **Cannot be converted to recycling mode system**

SUGGESTED PRODUCTS*

No.	Description
55627100	Filter for hood No. 55630170

EURO SERIES

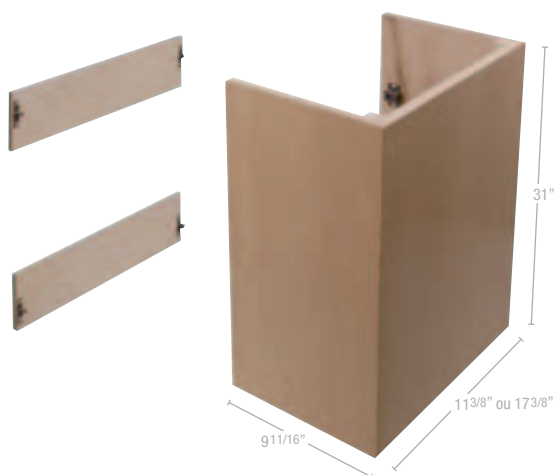

WOODEN HOOD

EURO HOOD

No.	Description	Material
12030150	30" (762 mm) wooden hood	Maple (unfinished)
12036150	36" (914 mm) wooden hood	Maple (unfinished)

● Chimney extension sold separatly

CHIMNEY EXTENSIONS

No.	Description	Material
CH213031150	For 30" Euro series hood No. 12030150 h: 31" (787 mm)	Maple (unfinished)
CH213631150	For 36" Euro series hood No. 12036150 h: 31" (787 mm)	Maple (unfinished)

VALUE-ADDED FEATURES

- Wall-mounted wooden hood
- Contemporary look
- Designed for easy and fast installation
- French cleat hanging method (patented)
- Silver metallic liner included
- Other widths and wood species available upon special order
- Designed to accept ventilator
No. 20500170 (500 CFM)

(see p. 13-15 for ventilators and accessories)

VALUE-ADDED FEATURES

- Designed to fit perfectly to Euro Series wooden hoods
- Height of 31" (787 mm) to be cut to required size
- Simply clips into place
- All hardware included

FOR A COMPLETE SYSTEM, ORDER*:

- A** 1x Euro series hood
- B** 1x Chimney extension
- C** 1x Ventilator (see p. 13-15)
- D** 1x Ductless kit, if necessary (see p. 13-15)

● Chimney extension sold separately

CHIMNEY EXTENSION

No.	Description	Material
CH213631150	Chimney extension for Signature and Euro series hoods h: 31" (787 mm)	Maple (unfinished)

VALUE-ADDED FEATURES

- Wall-mounted wooden hood
- 2 versions: arched or straight valance
- Designed for easy and fast installation
- French cleat hanging method (patented)
- Silver metallic liner included
- Other widths and wood species available upon special order
- Designed to accept ventilator **No. 20500170** (500 CFM) or **No. 20390100** (390 CFM) (see p. 13-15 for ventilators and accessories)

VALUE-ADDED FEATURES

- Designed to fit perfectly to Signature Series wooden hoods
- Height of 31" (787 mm) to be cut to required size
- Simply clips into place
- All hardware included

FOR A COMPLETE SYSTEM, ORDER*:

- A** 1x Arched or straight hood
- B** 1x Chimney extension
- C** 1x Ventilator (see p. 13-15)
- D** 1x Ductless kit, if necessary (see p. 13-15)

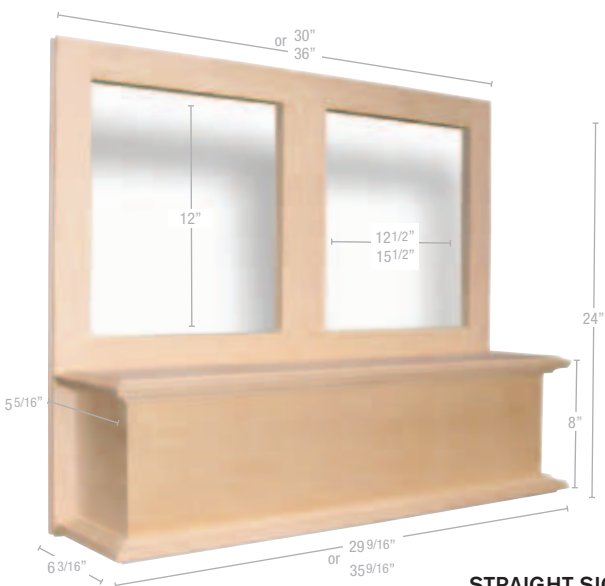

SIGNATURE CANOPY SERIES

WOODEN HOOD

ARCHED SIGNATURE HOOD

No.	Description	Material
11530150	30" (762 mm) arched Canopy hood	Maple (unfinished)

SELECT CANOPY HOOD

WOODEN HOOD

No.	Description	Material
20030150	30" (762 mm) Select hood	Maple (unfinished)
20036150	36" (914 mm) Select hood	Maple (unfinished)

VALUE-ADDED FEATURES

- Designed for easy and fast installation
- French cleat hanging method (patented)
- Silver metallic liner included
- Designed to accept ventilator **No. 20500170** (500 CFM) or **No. 20390100** (390 CFM) (see p. 13-15 for ventilators and accessories)
- Other widths and wood species available upon special order
- Can be cut up to 12" (305 mm) shorter in height

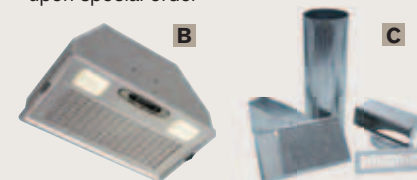

FOR A COMPLETE SYSTEM, ORDER*:

- A** 1x Artisan hood
- B** 1x Ventilator (see p. 13-15)
- C** 1x Ductless kit, if necessary (see p. 13-15)

VALUE-ADDED FEATURES

- Manufactured from solid wood and wood veneers
- Apron of 6" (152 mm) for flexibility of decoration and timeless style. Please consult our *Corbels and Ornaments* brochure for a wide selection
- Designed to be installed between 2 cabinets
- Silver metallic liner included
- Designed to accept ventilator **No. 20250100** (250 CFM) or **No. 20390100** (390 CFM) (see p. 13-15 for ventilators and accessories)
- Other wood species available upon special order

FOR A COMPLETE SYSTEM, ORDER*:

- A** 1x Select hood
- B** 1x Ventilator (see p. 13-15)
- C** 1x Ductless kit, if necessary (see p. 13-15)

TRADITION CANOPY HOOD

B 90372000	Charcoal filter refill for ventilator No. 20250100 & No. 20390100

VALUE-ADDED FEATURES

- 250 CFM power
- 2-speed adjustment
- Push button control
- Incandescent light bulbs are **not included** (2x 40W, candelabra base)
- Aluminum filter included, dishwasher-safe
- cUL-UL and HVI certified

VALUE-ADDED FEATURES

- 390 CFM power
- 3-speed adjustment
- Push button control
- Incandescent light bulbs are **not included** (2x 40W, candelabra base)
- Aluminum filter included, dishwasher-safe
- cUL-UL & HVI certified

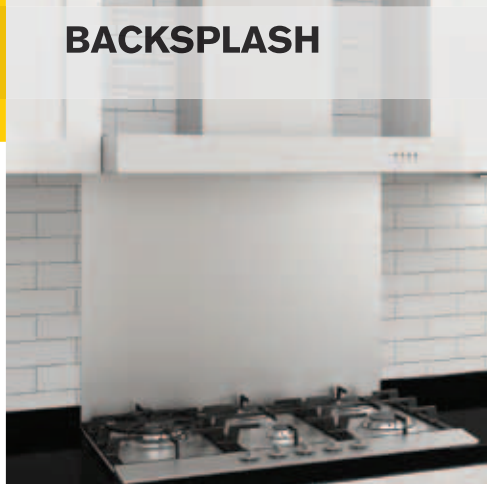

VALUE-ADDED FEATURES

- Allows to convert your hood into an internal recycling mode
- Charcoal filter included
- We recommend replacing your filter a once year to guarantee efficient internal air recycling

BACKSPLASH

STAINLESS STEEL

VALUE-ADDED FEATURES

- This backsplash blends well with your stainless steel hood
- Protects the wall against accumulation of cooking grease and smoke
- Very easy to clean
- Made of grade 430 stainless steel
- Fitted with a lip of 3/8" (9.5 mm) above and below to ensure a perfect finish with ceramics
- Requires a distance of 29 1/2" (749 mm) from the base of the hood and the cooking surface

No.	Description
50300170	30" backsplash
50360170	36" backsplash
