## Aerosols Colors

### Finisher's Glaze

A quick and easy way to glaze. This medium-viscosity professional glaze provides a quick initial flash dry and excellent adhesion when used with most common finishes. Simple application for touch-ups, adding color to light areas, small glazing jobs, carvings, moldings, and simple clean-ups.

Sold by unit

PRODUCT	FINISH	SIZE	QTY/BOX

Suggested Product(s):

M1202040 – Spray Head for Finisher's Glaze

### Wiping Wood Stain Aerosol

Pigment wiping stains that create beautiful, grain-enhancing, fade-resistant wood tones. They can be used as stand alone stains or in conjunction with our other products to create professional finishes with rich depth of color. Apply by spraying the stain to the surface of the wood and using a brush or a cloth to spread the color.

### Break-A-Way Glaze

Break-A-Way Glaze is the perfect product to easily add heavy and detail accent color to ornate fine cabinetry or woodworking. This product should be applied over a sanded sealer or finish coat, and then allowed to dry to a chalky, powdered state that can be removed easily with an abrasive pad. Break-A-Way Glaze must be topcoated with a clear finish.

## Aerosols Sealers

### Pre-Catalyzed Sanding Sealer

Excels in flow-out, adhesion, and hold-out. Fast-drying and resistant to yellowing. Leaves no halo on spot repairs. Recommended for use under Pre-Catalyzed Clears, Final Finish Clears, and C.A.B. Production Topcoats.

PRODUCT	SIZE	QTY/BOX
M1020413	13 oz	1

### Heavy Bodied Sanding Sealer

Used to repair light scratches, packing marks and light indentations. This sealer contains additional fillers to perform the repair in less time.

PRODUCT	SIZE	QTY/BOX
M1020491	13 oz	1

### Finisher's Choice Sanding Sealer

A high solids aerosol lacquer that eliminates the need to mix bulk finishes for your small refinishing and restoration jobs.

PRODUCT	SIZE	QTY/BOX

## Aerosols Clears

### Ultra-Flo Ultra Bond Clear

The Ultra-Flo Ultra Bond Clear topcoat is specially formulated to adhere to and flow out over hard-to-coat surfaces such as UV finishes, 2-component polyurethanes, polyesters, etc. Ultra-Flo Ultra Bond Clear topcoat features a unique blend of resins and solvents for superior adhesion and flow. For best results, test Ultra-Flo Ultra Bond Clear topcoat prior to application to ensure compatibility with surface coating. Clean area to be sprayed with Mohawk's Wax Wash Remover aerosol. Multiple light coats, allowing each coat to dry before re-application, provide the best results.

Sold by unit

PRODUCT	FINISH	SHEEN	SIZE	QTY/BOX
M1020550	Gloss	80	13 oz	12
M1020551	Semi-Gloss	60	13 oz	12
M1020552	Satin	40	13 oz	12
M1020553	Flat	25	13 oz	12

### Perfect Blend® Lacquer

A premium blended nitrocellulose lacquer providing excellent adhesion over waxed and polished surfaces as well as areas contaminated with silicone. Perfect Blend features a soft spray, low film build, and a fine atomization resulting in virtually no overspray, little bounce, excellent flow, and a strong ability to blend in with the surrounding surface.

Sold by unit

M1020780	Gloss	80	13 oz	12

### Perfect Blend® Waterborne Lacquer

A premium blended water-based acrylic lacquer, fast-drying, HAP-free, and with a low odor. This product gives excellent adhesion over waxed and polished surfaces. Perfect Blend® Waterborne aerosol is ideal for touch-up use where odor may be an issue, especially in restaurants, offices, homes, and hotels. Soft spray and fine atomization results in virtually no overspray. Superior blend with surrounding area: No touch-up halo effect. Low solids. Excellent adhesion over waxed and polished surfaces.

## Aerosols Toners

### Ultra Classic Toner

Transparent dye-based toner with the highest lightfastness rating available for dyes. Excellent flow out. No overspray. Mar- and alcohol-resistant. Solve flow-out problems associated with aerosol lacquer touch-ups! Ultra Classic Toners use a non-fading, non-bleeding dye for excellent clarity. Wood shades can be varied without causing the muddy effect sometimes associated with pigment-type toners.

## Aerosols Cleaners

### Furniture Cleaner and Restorer

Maintains the original new look of oiled, walnut, teak, and rosewood furniture. Instantly restores color as it cleans. Hides scratches.

Sold by unit

PRODUCT	SIZE	QTY/BOX
M1070179	13 oz	12

### WaxWash Remover

Removes wax, oil, and foreign materials from most surfaces in one application. The presence of these can retard drying or cause defects in finishing topcoats. Prior to applying a new finish or repair, clean surface with Wax Wash Remover. Ideal for furniture, appliances, woodwork, and other surfaces.

Sold by unit

PRODUCT	SIZE	QTY/BOX
M1070190	12 oz	12

### Vinyl/Plastic and Leather Cleaner

Easily cleans vinyl upholstery, leather, rubber, enamel, ceramics, and chrome appliances. Not only cleans, but provides a protective film for subsequent re-cleaning. Also recommended for upholstery.

Sold by unit

PRODUCT	SIZE	QTY/BOX
M1070479	16 oz	12

### Crystal and Glass Cleaner

Windows, mirrors, and crystal remain clean longer. Dries crystal clear in seconds without leaving a dirt-catching film. Also useful for cleaning refrigerators, stoves, chrome appliances, and other appliances.

Sold by unit

PRODUCT	SIZE	QTY/BOX
M1070485	15 oz	12

### Quick Clean

Mohawk Quick Clean is a combination of solvents that removes unwanted foreign materials from most surfaces prior to applying a new finish or repair work of finished surfaces. This product is ideal for cabinets, furniture, appliances, woodwork, and other finished surfaces. Dries quickly. Non-greasy formula. Low odor. Removes unwanted glaze during the glazing process. Removes labels and glue from most surfaces. Cleans and prepares finished surfaces prior to applying an additional finish coat.

Sold by unit

## Touch-Up Markers

### Promark Touch-up Markers

With excellent flow, these colors offer the most resistance to fading and bleeding. The nibs provide superior flow along with the durability required for all general repair work, and remain usable for the life of the markers. Markers work equally well whether you use the edge, the bottom, or the tip.

## Touch-Up Markers

### Promark Markers and Pouch

With excellent flow, these colors offer the most resistance to fading and bleeding. The nibs provide superior flow along with the durability required for all general repair work, and remain usable for the life of the markers. Markers work equally well whether you use the edge, the bottom, or the tip.

PRODUCT	COLOR	QTY/BOX
M2672680	24 Colors Kit M267 in Pouch*	1
M9592674	Empty Pouch	1

\* For the complete list of colors included in each kit, please refer to our web site and "click" on Color Chart, in section Documents.

### Ultramark Touch-Up Markers – Standard Colors

If you can write, you can touch up furniture defects instantly! Contains lightfast pigments which seal, stain, and finish in one easy operation. Ideal for edge and scratch recoloring. Compatible with all types of finishes. Use in conjunction with Mohawk Fil-Stik Putty Sticks and E-Z Flow Burn-in Sticks. For further protection, can be sprayed with Tone Finish® Clears as well as other lacquers, acrylics, varnishes, and urethanes. Replacement nibs are available in four different styles: Chisel point, writing point, bullet point, and metallic chisel point.

## Touch-Up Markers

### Brush Tip Graining Markers

This NEW brush tip graining marker features a micro brush tip applicator. This revolutionary marker and tip allow you to apply color exactly where it is needed without any messy powders, fluids, or odors. This is the perfect color tool for service technicians, shop technicians, or factory line technicians.

Uses for the brush tip graining marker:

- Add grain lines or alter the color of a Fil-Stik® Putty Stick, Quick Fill® Burn-In Stick, PlaneStick® Burn-In Stick or E-Z Flow Burn-In Stick
- Add color to small sand-through areas on the face or edge of wooden parts
- Add or alter color in any small defect
- Features a micro brush tip applicator
- 12 wood tone colors, two 6-pack assortments
- Clear crisp colors that hold a thin line
- Low to no odor
- Easy to use, teach, and learn
- Quick, easy application, no messy powders, extra brushes or liquids

## Pencils

### Accent Pencils

Accent Pencils are an easy to use tool for applying color or grain lines to a filler or a sand through area. They can also be used to apply color to light cut through edges.

Sold by unit

PRODUCT	COLOR	QTY/BOX
M2711000	Black	12
M2711001	Brown	12
M2711002	Red Brown	12
M2711003	True Brown	12
M2711004	Fruitwood	12
M2711005	Cherry	12
M2711007	Dark Umber	12
M2717000	Various colors	7

### Graining Pencils

Now softer for easier transfer. Used to replace grain or color on finished and unfinished surfaces. Especially designed for printed photographic finishes. Recommended for production line touch-up stations so that color can be replaced along a moving line. The absence of liquid eliminates drying time so that a final coating can be applied without interrupting production lines.

### Hard Fill

Hard Fill is made from a blend of hard waxes and is used to repair minor and medium defects in wood and rigid plastic. Recommended for repairs on floors, tops, fronts, sides, doors, drawers, and any wood surface.

- Easy to learn and use
- Excellent for dents
- Little to no sanding
- Works for any sheen
- Builds finish quickly
- Safe for any finish

### Quick-Fill Burn-In Stick

Quick Fill Burn-In Stick is an innovative burn-in stick that makes filling defects quick and easy. Designed to fill nicks, dents, and scratches, this is the perfect filler for cabinetry, vinyl-wrapped products, and photo-processed laminates. Quick Fill Burn-In Stick can be applied using a simple heat source and leveled without the use of burn-in knives or sandpaper. This means that you won't burn or sand through the existing finish. Low sheen. Quick and simple application. Simple tools: Heat source and plastic card. Simple to learn and master. Perfect for production workers, field service technicians, and cabinet installers. 36 stock colors. 4 assortments.

## Stains, Pigments and Dyes

### Ultra-Penetrating Stain

An all new dye-type stain that offers the superior transparency found only in dye stains. Excellent lightfastness. Will not bleed into topcoat finishes. May be brushed, wiped, or sprayed directly onto wood or mixed with lacquer for toning. Colors may be intermixed to create additional shades. Mohawk's Ultra Penetrating Stain offers the user the best combined characteristics of water, alcohol, and lacquer type dyes. 120 VOC-compliant.

## Stains, Pigments and Dyes

### Wiping Wood Stains

Semi-transparent, pigmented, solvent-based stain. Non-grain raising and fade-resistant. Easy-to-stir, soft-settling formula. Only 30 minutes of drying time are needed before a lacquer sealer coat can be sprayed. Apply by spray, brush, or cloth. Pigmented Wiping Stains are easier to control because there's no lapping. This is an ideal uniforming stain when applied over dye stains prior to sealing, and will never bleed through the finish. Open work time can be increased by adding Wood Stain Retarder. Virtually any finish can be applied over Wiping Wood Stain: Lacquer, shellac, varnish, polyurethane, acrylics, and many others.

## Stains, Pigments and Dyes

### Bleachtone

Bleachtone is a unique product used to create the popular pickle-frost look. This product allows end users to achieve a transparent layer of color on maple that does not block out the grain. White in color, but can be tinted with colorants to create custom colors. Bleachtone can be sprayed directly onto the wood or added (no more than 40%) to E-Z Vinyl Sealer for improved color control. Bleachtone should be sprayed at approximately 30 psi and applied in multiple coats, similar to an Ultra Penetrating Stain, to achieve the desired color. Glaze can be applied over Bleachtone to achieve a variety of popular looks. White.

PRODUCT	SIZE	QTY/BOX
M5502027	1 gal.	1

### Wood Stain Reducer S-15

To increase open time for Wood Tone Wiping Stain, you may add up to 8 oz. per gallon of Mohawk Wood Stain Retarder. 250 VOC compliant.

PRODUCT	SIZE	QTY/BOX
M6502507	32 oz	1

### Seal and Stain Pre-Stain/Clear Stain Base

For use as a pre-stain treatment of wooden surfaces to reduce blotchy areas in soft woods before staining. Sand wooden surface with 150 or 180 grit sandpaper. Apply base by spray, brush, or rag liberally over entire surface and remove excess by wiping with a cloth. Allow Seal and Stain Pre-Stain/Clear Stain Base to dry for 15-30 minutes before applying any M520 or M545 stain color. Best results are achieved if the stain is applied within 12 hours. Use as a clear stain base with colorants to mix custom colors. Up to 20% by volume of Mohawk M500 or HUL 844 tint colorants may be added to Seal and Stain Pre-Stain/Clear Stain Base to create custom stain colors. Seal and Stain Pre-Stain/Clear Stain Base may also be added to any M545 wiping stain to reduce color intensity.

## Stains Glazes

### Finisher's Glaze Clear Glazing Stain

Clear Glaze is used to reduce the color strength of colored Finisher's Glaze Glazing Stains to suit the job at hand. Mixes readily with all Finisher's Glaze Glazing Stain colors. Does not interfere with the adhesion of topcoats.

PRODUCT	SIZE	QTY/BOX
M5040007	1 gal.	1

### Finisher's Glaze Glazing Stain

A truly new glazing stain. Features a super-concentrated colorant in a medium = viscosity base. A unique combination of resins provides excellent adhesion between the sealer, glaze, and topcoat. Colors can be intermixed to achieve a variety of new shades. Compatible for use with conventional and modern catalyzed finishes as well as conversion varnishes and urethanes.

## Reducers, Solvents and Additives

### Acetone

Acetone is a strong, VOC-free, fast-evaporating solvent used for thinning and cleaning fibreglass resins, epoxies, vinyls, lacquers, and adhesives. Acetone may be used as needed for reducing Mohawk's Ultra Penetrating Stains (M520). It may also be used with Mohawk's Wood Tone Wiping Stains (M530) and all Mohawk 550 and 275 VOC-compliant finishes if reduced no more than 20%. Acetone will not contribute any additional VOCs to products.

PRODUCT	SIZE	QTY/BOX
M6500017	1 gal.	1
M6500018	5 gal.	1

### No-Blush Retarder

Prevents lacquer from blushing or turning white (a cloudy effect) in humid or cold weather, and helps prevent orange peel caused by too-rapid drying of the finish. Add 5% to 10% No-Blush to the lacquer thinner used to reduce lacquer.

PRODUCT	SIZE	QTY/BOX
M7162407	1 gal.	1

### Super Blush Retarder

Very slow tail-end solvent for lacquer. Use in extremely high-humidity areas to avoid blushing.

PRODUCT	SIZE	QTY/BOX
M7163407	1 gal.	1

### Flash-Off Control Solvent

Flash-Off Control Solvent is used to improve the flow of lacquers and sealers by extending the flashing or initial drying stage without slowing the overall drying. The addition of one or two ounces of Flash-Off Control Solvent per gallon of lacquer will eliminate overspray roughness in the finish and improve overall smoothness. Not a blush retarder.

## Waxes and Scratch Removers

### Paste Wax – Blue Label

With carnauba wax for furniture and floors. A superb, balanced blend of waxes and pure gum spirits turpentine. Waterproof and long-lasting, unsurpassed for use on all wooden surfaces. Can be hand- or machine-buffed for a high luster.

PRODUCT	FINISH	SIZE	QTY/BOX
M86012435	Natural	16 oz	12
M86012455	Brown	16 oz	12

### Scratch-Off Scratch Remover for Dark Finishes

Recommended for all shades of walnut and mahogany furniture.

PRODUCT	SIZE	QTY/BOX
M8402004	8 oz	12

### Scratch-Off Scratch Remover for Light Finishes

Covers scratches on all maple, pine, oak, ash and similar light-colored woods. Fingernail scratches seem to disappear right before your eyes.

PRODUCT	SIZE	QTY/BOX
M8404004	8 oz	12

### Tung Oil

Fast-drying. Resistant to water, acids, alkali, and mildew. Oil finish for new or stripped wood furniture. One coat produces a low-luster finish. Each additional coat increases gloss. Mohawk Tung Oil (Modified) is a proprietary blend of non-break tung oil and prepolymerized alkyd resin in a solvent system. Recognized as fast-drying, hard, and resistant to water, acid, alkali and mildew. One of the most durable of all natural oils. An ideal oil finish for new or stripped wood furniture. One coat produces a low-luster finish, while each additional coat increases gloss. Far superior to linseed oil, as finished wood will not darken with age. Tung Oil preserves the natural color of the wood. Surface scratches in a tung oil-finished piece can be removed with steel wool and a small amount of tung oil. An occasional polishing with Mohawk's Lemon Oil Polish will preserve the beauty of the original finish.

## Polishes

### Bristol Cream Polish

Recommended polish for all finishes: Furniture, vinyl, leather, enamel, and porcelain. Cleans as it polishes, imparting a rich, clear patina finish. Wipes perfectly clean, completely free of oil residue. An occasional dusting with a cloth treated with Bristol® Cream Polish is all that is needed to ensure lasting beauty. Does not contain silicones.

PRODUCT	FINISH	QTY/BOX
M8102005	16 oz	12
M8102004	8 oz	12

### Oz Polish

New and improved! Oz polish now offers: – Antistatic agent for less dusting – Ultraviolet light absorber to protect the color of the wood – Lemon scent for a fresh, clean fragrance – Extended evaporation rate so that larger pieces can be polished with greater ease – Lower-VOC The all-in-one cream furniture polish. Cleans, polishes, and protects in one operation. May be used on any smooth-surfaced furniture, marble, tile, refrigerators, cabinets, chrome, fixtures-- you name it! Non-flammable, nonabrasive, greaseless, quick-drying and containing no silicones.

PRODUCT	SIZE	QTY/BOX
M8600005	16 oz	12
M8600006	32 oz	12

### Scratch and Mar Resister Polish

Mohawk Scratch and Mar Resister Polish is designed to make finished wood surfaces more resistant to scratches and marring than an untreated surface by adding surface lubrication. Mohawk Scratch and Mar Resister Polish reduces printing of the surface, packing marks and will not affect the finish sheen.

- Provides scratch resistance to wood
- Reduces coefficient of friction by adding surface lubrication
- Natural and tinted formulas, for light and dark finishes
- Contains an anti-static agent
- Scratch and Mar Resister Polish can be recoated
- Does not affect the sheen

## Cleaners

### Furniture Wash

Removes dirt, dust, and fingerprint marks. Maintains the original sheen of the finish. Ideal for preparing furniture for delivery to the showroom or home. Dries crystal clean without oily residue. Recommended for all shades of furniture.

PRODUCT	SIZE	QTY/BOX
M7121757	1 gal.	1

### Wax Wash Remover

A blend of solvents that, in a single application, removes wax and oil from any surface. Before applying a new finish or spot repair, clean your surface with Wax Wash Remover to ensure that the surface is free of oil and wax, as these can retard drying of a new finish. Benzene, naphtha or alcohol alone cannot remove all foreign matter as well as this product can. Perfect for use prior to refinishing furniture, woodwork, and appliances.

PRODUCT	SIZE	QTY/BOX
M7121906	32 oz	1
M7121907	1 gal.	1

### Silicone Wash

Excellent afterwash for removers. This wash helps to remove silicone residue caused by polishes and waxes, and minimizes fish eye problems from silicones.

PRODUCT	SIZE	QTY/BOX
M7123207	1 gal.	1

### Ink Remover

Removes ballpoint pen ink from vinyl upholstery, polyester, cotton, and wool fabrics. Will not hurt materials. Just dab on and blot off with a clean cloth once ink is dissolved. If finish is removed, use Mohawk's Clear Vinyl Spray Finish.

PRODUCT	QTY/BOX
M8740001	1

## Mohawk Kits

### Finisher's Glaze Stain Kit

Each of these shades can be mixed to help produce the desired color. Add richness and color depth to your final finish. Glazing has many different uses, such as:

- Use to get a desired effect or to help produce a certain color
- Produces attractive alternatives to just plain stains and lacquers
- Use as a stain; wipe or brush over sealer

Contains eight 4-ounce jars of our most popular basic colors: Raw umber, burnt umber, raw sienna, burnt sienna, Van Dyke brown, white, black, and clear.

PRODUCT	QTY/BOX
M5041200	1

### Cabinet Care Kit

The Cabinet Care Kit is ideal for cabinet shops, cabinet dealers, furniture retailers, distributors and virtually anyone who wants to "maintain the showroom appearance" of their wooden surfaces. The Cabinet Care Kit contains everything your customer needs to care for their cabinetry and furniture investment.

#### Contents:

1 - 8 oz. Cabinet and Furniture Cleaner an excellent overall cleaner for cabinetry and furniture. Use to clean light to moderate dirt. Will not affect the finish. Cabinet and Furniture Cleaner is concentrated and must be diluted at a ratio of 4 ounces per 1 gallon of water.

1 - 8 oz. Plush Cabinet and Furniture Polish and Restorer may be used on any interior wooden surface to clean and maintain fine cabinetry and furniture pieces without altering the original sheen. Dries free of oily residue and resists fingerprinting when dry.

2 - Cleaning and Polishing Cloths, 1 Dusting Cloth

## Professional Finishing Systems

### DuraCoat Pre-Catalyzed Lacquer

DuraCoat pre-catalyzed lacquers are premium-quality, user-friendly professional finishes for furniture, kitchen and bath cabinets, and millwork shops. DuraCoat features high solids, moisture resistance, good flexibility, and mar resistance. This product is much more durable than regular nitrocellulose lacquers. When used as a self-sealing system or over our E-Z Vinyl or high solids DuraCoat pre-catalyzed sealers, DuraCoat produces an exceptional finish system that passes KCMA testing. DuraCoat pre-catalyzed lacquers are ready-to-spray (RTS) high-solids, low-viscosity formulas that provide the best flow and build without reduction.

### E-Z Vinyl Clear Sealer – 550 VOC

E-Z Vinyl Sealer is designed for use in high-contact areas where improved durability, water resistance, and adhesion are critical. A key advantage is improved system flexibility. When properly applied under Mohawk pre-catalyzed or post-catalyzed systems, the system passes and/or exceeds KCMA testing. No catalyst needed; ready-to-spray viscosity. 550 VOC compliant. Excellent moisture resistance. Easy to use. Very good hold-out. Promotes adhesion with pre- and post-catalyzed topcoats.

### VersaLac Post-Catalyzed Lacquer

VersaLac is an easy-to-use, high-performance topcoat that is specifically formulated for high-contact areas such as bathroom vanities or kitchen cabinets, without losing control of your shelf and pot life. VersaLac is a water-clear, high-solids, post-catalyzed lacquer topcoat that is the state of the art. VersaLac is also easy to mix. This product provides a higher level of durability than ordinary pre-catalyzed systems, with near conversion varnish performance and all the benefits of a pre-catalyzed finish system. VersaLac works great as a self-sealing system or with the E-Z Vinyl and DuraCoat Pre-Catalyzed Sealers. VersaLac is the perfect choice when you need conversion varnish durability without the concerns of short pot life or wasted material. VersaLac topcoats are supplied in a ready-to-spray viscosity and are available in 4 sheens. 32% solids. – High solids – Water-clear – 6-month shelf life – Exceeds KCMA testing – Easy to catalyze – Near conversion varnish performance – Self-sealing system – Conventional VOC formula

### Ultra Clear Post-Catalyzed Conversion Varnish

Ultra Clear Conversion Varnish provides the ultimate high-end professional interior finish performance and appearance. These products not only pass but exceed the requirements of all KCMA Household Chemical Tests. Ultra Clear Conversion Varnish is a post-catalyzed water-white conversion varnish. When used with our Ultra Clear Conversion Varnish Sealer or a Self-Sealed system, these topcoats produce a finish system with maximum durability, wear, and moisture resistance. They have good color retention properties and form a highly flexible film. A UV inhibitor is included to stabilize colors. These finishes can be sprayed with conventional, airless, HVLP, and air-assisted airless equipment. Use Ultra Clear Conversion Varnish wherever the ultimate in finish protection is desired, such as kitchen and bath cabinets, laboratories, dormitories, office furniture, and display fixtures. Low-VOC. Before use, this product must be catalyzed at 8 oz. per gallon with M615-701. Ultra Clear Conversion Varnishes are high-solids, low-viscosity formulas that provide the best flow and build without reduction. – Ultra clear – Ultra high solids – VOC-compliant – Ultra high build – Maximum durability – 44% sprayable solids – HAP-free – Ultra-durable and moisture-resistant

### Ultra Clear Conversion Post-Catalyzed Sealer

Ultra Clear Conversion Varnish Sealer is formulated to be used with Ultra Clear Conversion Varnish Topcoats. This product features excellent flow, build and sanding properties. Before use it must be catalysed at a rate of 4oz. per gallon. Ultra Clear Conversion Varnish Sealer is a high solids-low viscosity formula that enables users to achieve the best flow and build without reduction.

## Professional Finishing Systems

### E-Z Vinyl Sealer – White

This high solids, ready-to-spray white vinyl sealer has excellent moisture-resistant characteristics. When topcoated with Mohawk's DuraCoat Pre-Catalyzed White or Ultra White Conversion Varnish, the system passes KCMA testing. This is the perfect choice for priming cabinets, millwork, and MDF. Exceptionally user-friendly. 41% solids. Easy to use; builds and dries fast. Exceptional hiding qualities. Promotes adhesion with pre-catalyzed and conversion varnish topcoats.

PRODUCT	VOC	SIZE	QTY/BOX

M6123067	1 gal.	1

### DuraCoat Pre-Catalyzed – White

Mohawk DuraCoat pre-catalyzed – white topcoats create a premium-quality finish that offers high moisture resistance, good flexibility, mar resistance, and excellent durability. These produce an outstanding finish for furniture, kitchen or bath cabinets. DuraCoat pre-catalyzed white topcoats offer high opacity and excellent coverage. When used over Mohawk E-Z Vinyl white primer, the system passes KCMA tests. 29% solids. No catalyst needed. Stir-and-spray formulation. Resists yellowing. 550 VOC compliant.

## Professional Finishing Systems

### Ultra White Post-Catalyzed Conversion Varnish

Ultra White Conversion Varnish topcoats offer the same maximum protection against moisture, wear, resistance to strong chemicals and the ease of use as the Mohawk Ultra Clear Conversion Varnish in a high opacity white system. It also contain UV inhibiting additives to protect and resist against yellowing. When used with Mohawk's E-Z Vinyl White Primer the system easily exceeds all KCMA tests and delivers a durable finish that is suitable for any furniture, kitchen or bath cabinet and millwork application. Catalyze with M615-701 Conversion Varnish Catalyst at a rate of 8 oz. per gallon. Maximum build and protection. Resists yellowing. 550 VOC compliant.

M61025008	5 gal.	1

### Conversion Varnish Reducer/Retarder

This unique solvent is specifically blended for Mohawk conversion topcoats and sealers. It can be used to reduce viscosity, to slow down drying time, or to clean up. Use only the Mohawk Conversion Varnish Reducer/Retarder with the Ultra Clear or VersaClad® Conversion Varnish topcoats and sealer to ensure compatibility and professional results. Warning: Not a VOC-exempt solvent. If an exempt solvent is needed, use acetone (M650-001) to reduce Mohawk's VOC-compliant conversion varnish products at a rate of no more than 20%.

## Adhesives and Lubricants

### Liquid Epoxy Glue

This product retains all of the physical strengths of epoxy adhesives while offering the added advantage of quick setting, even in thin films and at low temperatures. Can bond steel, ceramics, copper, wood, and nearly all other types of materials including concrete. This product is non-shrinking and will even harden under water. 12-hour cure is ideal for areas where excessive stress and strain are factors (e.g. furniture legs). Two-part formula mixes 1 to 1.

PRODUCT	CURING TIME	SIZE	QTY/BOX
M7452008	3-5 minute work time - 5 minute cure	4 oz	2
M7452016	3-5 minute work time - 5 minute cure	8 oz	2

### Industrial Grade Instant Adhesive Cyanoacrylate Glue

Industrial grade for maximum bonding strength. The thin version wicks into tight places where flowing into and under is essential. Medium and Heavy are for semi-smooth surfaces. Gel viscosity is for filling and bonding porous surface. Non whitening activator accelerates your curing time. De-bonder removes unwanted and excess glue. Glue any combination of wood, naugahyde, plastic, veneers, cardboard, rubber, ceramics, leather or vinyl. No clamping, instant set.

## Fillers

### Famowood Wood Filler

Easy application: This water-based wood filler requires no mixing. It spreads smoothly and evenly into small or large holes and cracks in unfinished wood. Fast drying time: Dries in 15 minutes. Once dry, the filler acts just like real wood and is ready to sand, saw, stain, nail, paint, or plane. High solid content: Takes stains and paints like real wood because it's made with real wood. Minimal shrinking: Stronger than the wood it replaces, with no signs of shrinkage, cracking, or crumbling. Indoor/outdoor use: Famowood water-based wood filler may be used indoors or out, making it ideal for custom projects. Safe: Non-flammable and free of solvent fumes, this product meets growing consumer demand for a product that has little or no impact on the environment, yet maintains the qualities of our time-tested solvent-based products. Easy cleanup: Simply clean tools with soap and water.

### Nail Hole Filler

Fill and texture nail holes with a sponge-tip applicator. Painter's Nail Hole Filler is a complete patching system that doesn't require messy putty knives. Just squeeze a small amount directly on the surface to be repaired, and it's ready to paint in 12-15 minutes. The washable, angled tip allows quick smoothing to match the texture of the wall being repaired. This product dries quickly and cleans up with water. Convenient packaging means no mixing and no mess. White.

## Laminate Repairs

## Richelieu Section 19B

### SeamFil Laminate Repair Tube

Repair nicks, seams and gouges with ease. SeamFil bonds mechanically to the substrate of laminate. This product dries hard and becomes a permanent part of the laminate surface. It resists moisture, detergents, and other household products as effectively as the original laminate. In addition to standard joints, SeamFil works very well on cracks, chips and other imperfections where the dark substrate is visible. Properly used, SeamFil will hide defects beautifully for the life of the counter.

2202	Wood Grain Kit**	6 oz	1

\* Colours in the standard kit: White, light gray, tan, brown, black, primary yellow, primary red, orange, almond, spectrum green, spectrum blue, retarder.

\*\* Colors in the woodgrain kit: White, brown, black, mahogany, maple, teak, birch, primary yellow, primary red, orange, butcher block, retarder.

**ColorFlex – Colored Caulk**

Custom colored acrylic latex caulk with silicone, ColorFlex is colored caulk designed for corner and perimeter caulking of decorative surfaces. After the component (counter, vanity, bath surround, etc.) is installed and the laminate seams have been filled with SeamFil, ColorFlex colored caulk is used to seal the inside corners and perimeter of the component. Where flexibility is needed, ColorFlex colored caulk is perfect for filling gaps and sealing places where components meet the walls, floors, cabinets, tile or insets.

ColorFlex colored caulk is not recommended for outdoor use as it can fade and is not intended for contact with water on a regular basis.

One 4 oz. tube (1/4" wide bead) covers approximately 10 feet.

One 10.5 oz. cartridge covers approximately 25 feet.

### ColorFlex – Colored Caulk

Custom colored acrylic latex caulk with silicone, ColorFlex is colored caulk designed for corner and perimeter caulking of decorative surfaces. After the component (counter, vanity, bath surround, etc.) is installed and the laminate seams have been filled with SeamFil, ColorFlex colored caulk is used to seal the inside corners and perimeter of the component. Where flexibility is needed, ColorFlex colored caulk is perfect for filling gaps and sealing places where components meet the walls, floors, cabinets, tile or insets.

ColorFlex colored caulk is not recommended for outdoor use as it can fade and is not intended for contact with water on a regular basis.

One 4 oz. tube (1/4" wide bead) covers approximately 10 feet.

One 10.5 oz. cartridge covers approximately 25 feet.

## Drying Systems

### Sun-Spot Drying System

#### Sun-Spot System

The Sun-Spot is an infrared catalytic heater with flameless combustion, \* providing a curing footprint of 24 to 36 inches from a distance of 24 inches. \* Specifications regarding the wood industry. Cordless, portable, lightweight, and easily adjustable. Patented design. High performance: Reaches 140 °F within 3 minutes. CSA approved. Flameless, 100% safe and easy to use. Applications: The handheld Sun-Spot unit is ideal for spot repairs. This is an excellent tool for use in both the preparation and paint shops, with unlimited applications. The energy produced can force dry or cure any type of coating system, solvent- or water-based formulation, in the automotive, aerospace, marine, industrial, or architectural sector. It also works on any type of glue, sealant, resin, etc., over any type of substrate, including metal, composite, fiberglass, wood, and plastic.

Working with a one-pound bottle of camping-type propane (16.4 oz./465 g), the Sun-Spot has an autonomy of 3.5 hours. This unit is a robust yet lightweight portable unit weighing only 7 pounds equipped with a 6-foot tripod stand.

#### Included Product(s):

- 1 thermoreactor
- 1 sun-spot support
- 1 adjustable tripod stand
- 1 adjustable strap
- 1 lighting base

**Application:** Works on all types of coatings, including: Urethane, Epoxy, Water-based, Polyester, Alkyd, Melamine, Latex, Lacquer, Acrylic, Glue, Sealant

#### Sun-Spot Carrying Case

Waterproof and impact-resistant with a lifetime guarantee.

- Impact-resistant
- Crushproof
- Dustproof
- Patented PowerClaw latching system
- Soft-grip folding handle
- Lightweight extra-strength NK-7 resin
- Can be padlocked

#### Included Product(s):

- 1 high-temperature protective pad that lets you store the Sun-Spot face down as soon as you're finished using it
- 1 carrying case
- 1 transport strap

# Drying Systems

## Sun-Spot Drying System

### Ring

The air ring allows the movement of compressed air in the infrared radiation. The displacement of air is warmed by the heat emitted by the catalyst pad, making the Sun-Spot unit Bi-energetic, infrared and convectional. This improvement was mainly developed for water based products (coatings). The ring tested very positively on waterborne products proving that it significantly accelerates drying while greatly increasing infrared footprint.

PRODUCT	DESCRIPTION	QTY/BOX
9625300	Ring	1

THESE ARE SPECIAL ORDER ITEMS, FOR MORE INFORMATION CONTACT YOUR RICHELIEU REPRESENTATIVE.

### Filter

- This gas filter reduces maintenance costs and improve performance at the same time
- The fuel gas filter needs to be positioned between the bottle of propane and the Sun-Spot unit gas inlet

PRODUCT	DESCRIPTION	QTY/BOX
9625400	Filter	1

THESE ARE SPECIAL ORDER ITEMS, FOR MORE INFORMATION CONTACT YOUR RICHELIEU REPRESENTATIVE.

### Thermoreactors

#### TECHNOLOGY OF CATALYTIC COMBUSTION

The flameless combustion produced by the Sunkiss thermoreactors emits medium infrared waves which generate tremendous heat within the film through molecular excitation. This action drives the solvent and the water outward.

#### EFFICIENCY

Sunkiss thermoreactors are flameless catalytic infrared heaters. This unit is simple to use, cost effective, and offers the option to force the drying or curing of any type of organic coating. Particularly efficient with water-based coatings, since it forces the moisture out of the film within 2 to 3 minutes.

#### NO BUFFING REQUIRED

With such a quick curing process, there's no need to use fans or any air movement to make the paint dry faster. No dust or dirt is blown onto the paint, so no buffing is required.

#### WORKS ON ALL TYPES OF ORGANIC COATINGS

### Portable Sanding Belts Metalite R215

Premium abrasive grain ensures a long product life, fast cutting, and an optimal finish. Manufactured with a smooth bidirectional butt splice. An X-weight cotton backing offers cool operation on platen sanders. Features: – Aluminum oxide – Full resin bond – X-weight cotton backing – Butt tape joint – Belts may be reversed in direction to achieve maximum performance.

#### Specification:

- Tough and durable with aggressive cutting abrasive action
- Increased strength
- Cool operation on platen sanders
- Reversible; excellent durability
- Backing: Cloth
- Details: Reversible

## Sanding Sheets

NORTON

## Richelieu Section 19D

We offer a wide range of standard 9" x 11" sheets with waterproof backings for hand sanding. Highly flexible backings and Dri-lube non-loading coatings are also available. Choose from top-quality sheets or economical sheets. Aluminum oxide provides a 30 to 50% faster cut rate, and silicone carbide is an excellent choice for a sharp cut and a consistent finish. Sheets are also available in natural garnet.

### Waterproof Silicone Carbide Sanding Sheets

**Specification:**

- Dri-lube
- Exceptional finishing in wet applications
- A-weight paper backing

Sold by box only

GRIT	PAPER BACKING (A, BLACK)	DIMENSIONS	QTY/BOX
220	4509110220	9" x 11"	50
400	4509110400	9" x 11"	50
500	4509110500	9" x 11"	50
600	4509110600	9" x 11"	50
1200	4509111200	9" x 11"	50

Any other size/dimension available upon request.

### Aluminium Oxide No-Fil Adalox A275 Sanding Sheets

**Specification:**

- Performance leader in dry finishing
- B-weight paper backing

Sold by box only

GRIT	PAPER BACKING (B)	DIMENSIONS	QTY/BOX
80	4009110080	9" x 11"	50

### Aluminium Oxide PB273 Sanding Sheets

Good choice for sanding paint, primer, plastics, fiberglass and wood at low initial price.

- Fast cutting action and extended life with consistent finish
- Improved resistance to delamination
- Provides improved load resistance
- No pigment transfer

#### Specification:

- P-Graded, aluminum oxide abrasive
- Flexible latex, B-weight backing
- Full Resin Open Coat
- Water-based stearate, non-pigmented No-Fil coating

Sold by box only

Any other size/dimension available upon request.

### Flex'n Sand Sanding Sponges

Flexible sanding abrasive for curved, contoured, or flat surfaces in wood, metal, paint, plastic, ceramics, and drywall.

Sold by unit

GRIT	COATING ON 4 SIDES	DIMENSIONS	TYPE	QTY/BOX
Medium	5202344215	4" x 2-3/4" x 1"	Medium	24
Fine	5202344205	4" x 2-3/4" x 1"	Fine	24

Any other size/dimension available upon request.

### Bear-Tex Abrasive Pad

This versatile finishing material saves you time and money. Applications include sealer sanding, highlighting, wiping stain, defuzzing, preparing surfaces for paint, and topcoat rubbing. This product is non-rusting, load-resistant, flexible, waterproof, cleanable and cool-cutting. Richelieu offers Fibratex/Bear-Tex in 4" x 30' rolls and 6" x 9" hand pads. This product can easily be cut to size and is available in a variety of grades to suit any application.

Features:

- Low-density, non-woven nylon impregnated with abrasive grain

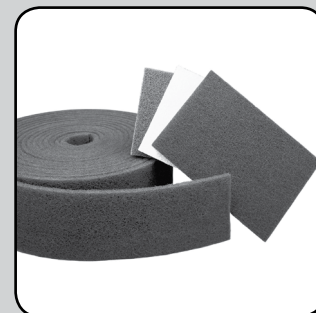

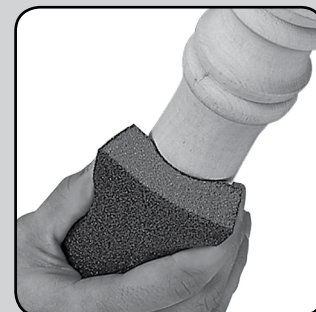

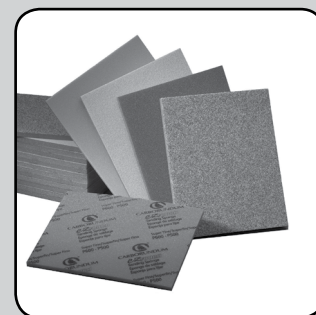

Benefits:

- Excellent flexibility and conformability

Sold by unit

### Rotolo A275 Sanding Pads

Rotolo foam pre-cut sheets, conveniently packaged in a roll form and perforated every 5-1/2", are ideal for fine sanding on round edges, contours and curves, providing an outstanding finish on primers and topcoats. The combination of high-performance A275 non-loading sanding paper and a special Rotolo foam backing make this product ideal for sanding waterborne paints where controlling the cut is critical. Sold in rolls of 4-1/2" x 82' (115 mm x 25 m).

- Perfect for hand-sanding primer without leaving finger marks
- Fast cut and long life without loading, ideal for waterborne paints
- Can be used moist
- Minimizes hard-to-hide sanding scratches for water-based paints
- Combines A275 with a foam backing
- Water-resistant
- Produces a uniform finish
- 179 sheets per roll

GRIT	A275 WITH FOAM BACKING HAND SANDING	DIMENSIONS	QTY/BOX
120	4441282120	4-1/2" x 82'	1
150	4441282150	4-1/2" x 82'	1
220	4441282220	4-1/2" x 82'	1
320	4441282320	4-1/2" x 82'	1
400	4441282400	4-1/2" x 82'	1

Any other size / dimension available upon request.

### Adalox A275 Stick-On Abrasive Roll

- Premium P-graded heat-treated aluminum oxide abrasive
- Resin bond
- Heavy B-weight PSA paper backing
- Unique anti-loading agent
- Unparalleled cut and life with a consistent finish
- Excellent pliability and tear resistance
- Easy application and removal

Sold by roll

# Packaging and Adhesive Tapes

## Tapes

## Richelieu Section 19E

### Protective Adhesive Film

Self adhesive, puncture proof, and tear-resistant blue polyethylene film for temporary protection of floors, countertops and other hard surfaces.

#### Specification(s):

- Easy to apply and remove; sticks and stays on surfaces
- Self adhesive but does not leave residue
- Effective, low cost way to protect floors
- For linoleum, ceramic tile, glass, marble, and other hard nonporous surfaces.

Sold by unit

PRODUCT	QTY/BOX
33924503	12

### Tan Value Masking Tape 101+

Cost effective for indoor light-duty applications. Rubber-based adhesive. Tan crepe paper backing. Temperature use range up to 175°F (79°C). Not recommended for critical paint masking applications. Low conformability. The basic tape for basic jobs: – Ideal for marking, temporary holding, wrapping and sealing.

Sold by unit

PRODUCT	WIDTH	LENGTH	QTY/BOX

## Packaging and Adhesive Tapes

### Yellow Industrial Performance Masking Tape 301+

Industrial-strength performance masking tape used for paint masking, bundling, holding, and identifying applications. 3M proprietary solvent-free adhesive sticks with confidence to most surfaces including metal, rubber, glass, and plastic while removing cleanly in one piece. Strong yellow crepe-paper backing conforms to irregular surfaces, resists bleed through of most industrial paint systems, and improves visibility during the paint masking process. Temperature use range up to 225°F (107°C) for 30 minutes. Great paint lines.

Sold by unit

### Green Painter's Grade Masking Tape 401+

Industrial-strength high performance masking tape used for critical paint masking applications. 3M proprietary solvent-free adhesive sticks with superior adhesion to metal, rubber, glass and plastic while removing cleanly in one piece without residue. High-strength green crepe-paper backing conforms to irregular surfaces, resists bleed through from most industrial paint systems, and improves visibility and accuracy during paint masking by creating super-sharp paint lines. Temperature use range up to 250°F (121°C) for 30 minutes.

### Tan High Temperature Masking Tape 501+

Offers the highest degree of industrial performance. The tape has an extra strong tan crepe paper backing that resists bleed-through from most industrial paints and is ideal for use in critical paint masking applications. Features: – 3M proprietary high-temperature adhesive quickly sticks with confidence to most surfaces and removes cleanly in one piece with no residue. – Exceptionally conformable to irregular surfaces with precise and sharp paint lines. – Superior adhesion to metal, rubber, glass and plastic. – Ideal for all high temperature paint baking, fascia painting and pipe coating applications. – Withstands surface temperatures up to 300°F (149°C) for 30 minutes.

## Tapes

### Clear Filament Tape

General-purpose filament tape 8932 has a clear polypropylene backing reinforced with fiberglass filaments for light-duty bundling, reinforcing, and pallet unitizing applications that require nick and abrasion resistance. Clear polypropylene backing, reinforced with fiberglass filaments for light-duty bundling, reinforcing and pallet unitizing applications where nick and abrasion resistance are needed. Tensile strength is 95 lb/in width and adhesion to steel is 50 oz./in. width. General purpose, light-duty filament-reinforced strapping tape provides excellent resistance to nicks and abrasion. Synthetic rubber adhesive has good shear strength with fiberboard, plastics and most metal surfaces for bundling, strapping and reinforcing applications. Reinforced strapping tape for general-purpose applications. For general industrial as well as food and beverage use. Box closing, palletizing, box reinforcing, and general bundling.

## Maintenance Products and Cleaners

### Richelieu Glass Cleaner

The most versatile glass cleaner available: Cleans glass, windows, mirrors, and windshields. Dissolves dirt, grease, grit, and grime. Heavy-duty foam clings to vertical surfaces. Contains perfume-grade alcohol for the best performance. Guaranteed to leave no film on newly-installed mirrors, windows, or windshields.

Sold by unit

PRODUCT	WEIGHT	QTY/BOX
D010308	19 oz	12

### Citrus All-Purpose Cleaner

For washable, painted surfaces including windowsills, Venetian blinds, and all porcelain and tile surfaces. This versatile product, formulated with orange citrus solvents, removes dirty hand prints from walls and doors, scuff marks from floors, bathtub rings, soot, grease, smoke film, oil, light carbon, dust, lipstick and crayon marks, and deodorizes as it cleans.

Sold by unit

PRODUCT	WEIGHT	QTY/BOX
D010985	19 oz	12

### Stainless Steel Cleaner

Cleans, polishes, preserves, and protects stainless steel without hard rubbing and polishing. Resists finger prints, grease, and water spatter. Helps preserve the factory finish. Also excellent for chrome. Specially formulated for use on stainless steel fixtures, equipment, or trim. Cleans, polishes, and protects stainless steel without scouring. Resists fingerprints, grease, and water spatter; preserves factory finish. Removes old or heavy accumulations of greasy film, food spatter, or oil stains. Not for use on cooking utensils.

Sold by unit

PRODUCT	WEIGHT	QTY/BOX
D010841	15 oz	12

### Saw Blade Cleaner

Works in minutes to clean pitch and gum from saws, router bits, and shaper cutters. This effective cleaner is safe to use on carbide, high speed steel, stainless steel, and cast-iron surfaces.

Sold by unit

## Maintenance Products and Cleaners

## Richelieu Section 19F

### Plastic Cleaner

Cleans the majority of plastic surfaces. – Acrylics – Plexiglas – Lexan – Polycarbonates – Chrome – Formica – Porcelain – Fiberglass – Marble – Safety glazing – Plastic mirrors  
Repels finger smudges, dirt, and dust. Contains no chemicals or abrasives that cause damage to plastic. Anti-static and anti-fog. Dries fast without streaking.

Sold by unit

PRODUCT	WEIGHT	QTY/BOX
D010346	19 oz	12

### Industrial Silicone Lubricant

Use on any surface: Metal, glass, rubber, plastic, painted finishes, and fabrics. Stops sticking drawers, windows, doors, screens, zippers, locks, etc. Eliminates annoying squeaks in hinges, latches, springs, etc. Retards corrosion and protects tools, aluminum windows, and doors. Helps prevent dirt and mud from sticking and keeps snow from sticking to snow shovels. Dries fast, leaving no greasy or oily film. Not affected by water, oil or solvents. Heat stable: Will not freeze or melt. Economical lubricant/release agent for professional and industrial trade use: Stops squeaks, prevents corrosion, and lubricates window channels and movable auto parts. Prevents sticking, speeds production, and cuts cleanup time. Reduces friction on paper cutters, knives, drills, etc. Helps equipment last longer and work harder.

Sold by unit

PRODUCT	WEIGHT	QTY/BOX
D030065	12 oz	12

### Dry Silicone Spray

Stops machinery from squealing, sticking, and binding. Dries rapidly, leaving no greasy or oily film. Retards corrosion and makes cleaning easier and quicker. Protects and preserves equipment. Prevents power tools from binding. Long-lasting residual performance. Use on surfaces such as metal, glass, rubber, most plastics (except polystyrene), painted finishes, and fabrics. Makes cleaning easier and quicker and protects and preserves your equipment.

Sold by unit

PRODUCT	WEIGHT	QTY/BOX
D010368	11 oz	12

### Blade/Dri-Cote Lubricant

Prevents resin buildup and reduces blade cleanings. Extends the overall life of blades and bits by up to 3 times. More than doubles the time between re-sharpenings. Contains NO silicone or petroleum oil. Will not stain wood or interfere with glues and finishes. Reduces cutting friction by reducing saw or drill motor drag by up to 25%. Increases productivity by creating less downtime for saw blade changeovers. Works equally well on steel, carbide, stellite, and diamond-tipped cutting blades.

Sold by unit

PRODUCT	WEIGHT	QTY/BOX
00026	10.75 oz	12

# Finishing Products, Abrasives and Shop Supplies I

## Maintenance Products and Cleaners

### Glide/Top-Cote Lubricant

Eliminates hang-ups on sliding surfaces. Protects all tools and equipment from rust. Up to 30% slicker than paste wax. Prevents rust 5 times longer than paste wax or silicone. Easier and quicker to apply than paste wax. Lasts 3 times longer than paste wax. Contains NO SILICONE or petroleum oil. Will not stain wood or interfere with glues or finishes. Perfect for table saw beds, drill presses, lathes, planers, band saws, miters, panel saws, and all hand tools. Environmentally safer aerosols, no CFCs or ODCs.

Sold by unit

PRODUCT	WEIGHT	QTY/BOX
00027	10.75 oz	12

### Bearing Lubricant

Regular maintenance with Bostik Bearing Lubricant significantly reduces bearing load friction and burn-out. This product dries quickly and will not gum up even after several applications. Benefits: – Extends bearing life by 3 times. – Unfreezes frozen bearings. – Ideal for router work on wood and all solid surfaces. – Reduces operating friction by 25%. – Cuts down on glue buildup and makes clean-up easier. – Remains an effective lubricant twice as long as oil, up to 550 °F. – Lubricates under loads up to 50% greater than oil. – Contains NO silicone or petroleum oil. – Will not stain wood or interfere with glues or finishes. – Environmentally safer aerosol with no CFCs and no ODCs. Also ideal for: – Locks – Hinges – Latches – Casters.

#### Directions:

- Bearing maintenance: Spray all internal parts of bearing. Reapply weekly or more frequently based on workload
- Frozen bearings: Spray inside of bearing. Gently rotate bearing, working in the lubricant. Reapply as necessary until carbonized part loosens and bearings break free

**Applications:** Woodworking, Router bit bearings, Roller bearings, Ball bearings, Wheel bearings, Drawer slides

### Countertop Magic Cleaning Polish

Cleaner and polish for laminates and other plastics. Colorless with no wax buildup and a pleasant fresh aroma. Produces excellent results on all Sonae, Wilsonart, Formica, Arborite products as well as on polyester.

Sold by unit

PRODUCT	SIZE	QTY/BOX
1844	17 oz	12

### 3M Aerosol Citrus-Based Cleaner

A heavy-duty cleaner that works effectively on hard-to-remove substances including grease, oils, grime, sludge, polymer compounds, and many adhesives. This unique product can be used on most painted or unpainted metals (including aluminum and stainless steel), ceramic, glass, porcelain, and many plastics. Ideal for cleaning and degreasing industrial equipment and work areas. Features: – Solvent-free: Cleaner contains no petroleum distillates. – Non-corrosive: With a mild pH (7.5), metal corrosion problems are minimized. – Multipurpose: Removes most dried adhesive (non-curing type), tape, and tape residue as well as cleaning and degreasing parts, work areas, walls, floors, equipment, and vehicles. – Cleans gently: Contains no caustic, acidic, or chlorinated compounds and does not damage most painted surfaces or aluminum parts. – Fresh citrus scent: Active ingredient derived from citrus oil, giving it an orange aroma.

## Shop Supplies

### Richelieu Drying Rack

This versatile drying and handling rack can manage all your material-handling needs. The perfect size for drying cabinet doors and parts in your finishing department, this rack lets you load up all 50 shelves and roll it out of the way. The shelves are removable for thicker materials, or you can run longer items through the shelves. Also works well for laminates. The rack assembles and disassembles easily.

#### Specification(s):

- 50 shelves (25 on each side)
- 4 heavy-duty 5" casters, including 2 with brake
- 2-inch spacing between shelves
- Shelf size: 16" deep, 12" wide
- Shelf angle: 5°
- Holds 20 lb per shelf
- Height: 72"
- Base: 25" x 38"
- Weight: 125 lb
- All-metal construction
- White powder-coated finish
- Comes in 4 parts

### Richelieu Lateral Part Cart

A flexible, heavy-duty, lumber delivery system. Carries uncut panels or can be configured with as many as 12 bins. Allows workers to sort parts for easy identification and accessibility. The end divider can be installed parallel or perpendicular with the cart for greater flexibility. With the uprights removed, the cart can be used as a lumber cart. Narrow width is perfect for congested aisles.

#### Specification(s):

- Comes in three parts
- Dimensions: W 22" x H 59" x L 60"
- Weight capacity: 2,000 lb

#### Included Product(s):

- 4 swivel casters ( 2 locking swivel casters)
- 5 mountings
- 1 base with pre-drilled plate
