

340D CLOTH BELTS

The 3M Cloth Belt 340D is a good general purpose belt for your woodworking and metalworking needs. It has an open coat construction that helps evacuate sanding dust for a more aggressive cut and longer abrasive life and a resin bonding that will withstand high heat and pressure for longer service life.

- Premium aluminum oxide offers increased cut-rate and abrasive life
- Heavyweight cloth backing provides durability for high-production environments
- Washable backing enables repeated use on high-loading substrates such as pine

Application: Suitable for sanding softwoods

Sold by unit

SCOTCH-BRITE ABRASIVE HAND PADS

The durable open-web construction of our Scotch-Brite™ Ultra Fine Hand Pad is load resistant, offers long life and consistent abrasive action for cleaning, finishing, and buffing with no need to adjust, turnover, or continue the same project with a new pad. Filled with silicon carbide abrasive mineral, a synthetic mineral that is very sharp and commonly used for low-pressure applications such as paint prep. While it breaks down faster than aluminum oxide, it produces a superior finish.

- Pad conforms to irregular surfaces and gets into corners without losing performance
- Cleans metal, composites, and other materials without altering the base material
- Can be used right out of the box by hand, paired with a hand pad block, or run on an in-line sander for faster completion on larger areas

Application: Suitable for cleaning composites, paint prep, sealer scuffing, and scuffing between coats

Sold by unit

426U SANDING DISCS

3M™ Stikit™ 426U and Hookit™ 426U sanding discs are constructed of silicon carbide mineral on a light-weight paper backing for smoother and fine superior finish and are suited for rotary and random orbital sanders.

3M™ Stikit™

The Stikit with a PSA (pressure sensitive adhesive) paper backing will flex with the backup pad and flow over contours to produce consistent finishes, the adhesive holds the discs securely during use and provides quick and easy change out for multi-step sanding and finishing purposes.

3M™ Hookit™

The Hookit (hook-and-loop) attachment system makes the disc changes fast and easy, meaning the disc can be used again and again for extent of the abrasive life.

- Silicon carbide which is hard and very sharp mineral, when commonly used for low-pressure application, produces a best possible superior finish
- Open coat, load-resistant coating to help prevent clogging

Application: Aluminum, hardwood, softwood, solid surface and sealer sanding

Sold by unit

Specifications:

- Grain: Aluminum oxide
- Bonding: Resin
- Backing: A-weight
- Coating: Open

GRANAT SANDING DISC FOR ETS 125 SANDERS

Premium abrasive composed of hardened aluminum oxide and ceramic grit designed to remove scratch-resistant and high VOC coatings.

- Provides maximum resistance to clogging and smearing, which means a longer lasting abrasive and less touching up
- Reduce costs and achieve consistent, high-quality results every time
- Specially designed Multi-Jetstream hole pattern significantly improves dust extraction, for a 30% longer abrasive life
- Easy to position on the pad, no need to align to dust extraction holes on the sander's pad
- Engineered and manufactured according to strict FEPA standards, guaranteeing uniform abrasive positioning and consistent sanding results
- Compatible with Festool ES 125, ETS 125, Rotex RO 125 and other 5-inch sanders (sold separately)

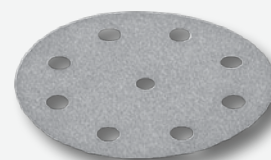

Application: Suitable for sanding materials that produce a large amount of dust

BASECUT STICK-ON SANDING DISC

An economical abrasive that offers the characteristics of superior design, production processes and materials.

Makes an aggressive initial cut and its durability makes a long working lifespan that reduces cost.

Application: Wood, composites and more

Specifications:

- Grain: Aluminum oxide
- Bonding: Resin over resin
- Backing: D, C, and B paper
- Coating: Semi Open

PRODUCT	GRIT	DUST EXTRACTION HOLES	DIAMETER	QTY/BOX
A22314320	320	Without Holes	5"	Box of 100

Q-SILVER ACE CERAMIC SANDING DISCS

Q-Silver Ace is a ceramic premium abrasive with paper backing for tougher universal sanding.

- Ceramic grains provide improved sanding performance and durability, especially when sanding harder surfaces.
- Strong, full resin bonding offers superior grain adhesion to the backing

Application: Hardwood, MDF, paint sanding, stripping / removal, lacquers and more

Specifications:

- Grain: Ceramic/Ceramic coated
- Bonding: Resin over resin
- Backing: D, C, and Latex paper
- Coating: Semi-open

MIRKA

HIOLIT WIDE SANDING BELTS

Mirka Hiolit is an excellent abrasive material designed for wide belt machine sanding.

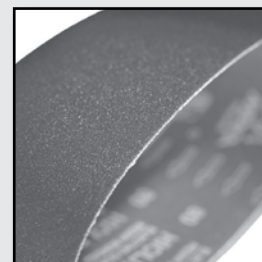

- Excellent edge wear resistance and durability, producing extremely high quality results
- Manufactured with a durable "T-Joint", set at an angle to prevent chattering and marking in the material

Application: Hardwood, MDF, paint sanding, stripping / removal, lacquers and more

Sold by unit

Specifications:

- Grain: Aluminum oxide
- Bonding: Resin over resin

WIPING WOOD STAINS

Semi-transparent, pigmented, solvent-based stain. Pigmented Wiping Stains are easier to control because there's no lapping. This is an ideal uniforming stain when applied over dye stains prior to sealing, and will never bleed through the finish. Open work time can be increased by adding Wood Stain Retarder. Virtually any finish can be applied over Wiping Wood Stain: lacquer, shellac, varnish, polyurethane, acrylics, and many others.

- Non-grain raising and fade-resistant
- Easy-to-stir, soft-settling formula
- Can be applied by spray or brush, or cloth
- Only 30 minutes of drying time needed before a lacquer sealer coat can be sprayed

RICHELIEU WATER BASED LATEX FORMULA WOOD FILLERS

Wood filler Richelieu Brand with latex formula is a water-based compound to plug or clog different holes and crevices present in wood flooring, furniture and other woodwork.

- Easily spreadable with a putty knife or other leveling tool
- Dries quickly and is easily sandable following drying time
- Adheres well on all wood types
- Shrink-resistant
- Fully paintable and stainable
- Can be used for interior and exterior surfaces
- Available in format of 125 ml (4 oz), 500 ml (16 oz) and 1 gal. (3.8 l)

Application: Ideal for doors, woodwork, floors, decks and furniture

GOODFILLA WATER-BASED WOOD FILLERS

GoodFilla is a unique water-based formulation that does not contain acrylic or latex as its binder. If GoodFilla dries out, you can re-constitute it, you no longer need to throw away the rest. Goodfilla is high in solids, therefore limiting evaporation of water. The water is replaced with a coating, leaving a stable finished product.

- Adheres well on all wood types
- Shrink and crack resistant
- Fully paintable, stainable and tintable
- Zero-VOC - Environmentally friendly, non-toxic, and biodegradable
- Available in format of 125 ml (4 oz), 500 ml (16 oz) and 1 gal. (3.8 l)

Application: Ideal for doors, woodwork, floors, decks and furniture

Sold by unit

GOLDFLEX SOFT SANDING PADS

The soft and flexible Goldflex Soft has been developed for sanding profiled surfaces and irregular, difficult-to-reach details by hand. The foam base is grip friendly and applies pressure evenly, which reduces the risk of sanding through the surface.

- Ideal for both wet and dry sanding
- Produces a high quality finish
- Durable, aluminum oxide grain delivers a long lasting, smooth cut
- Special stearate coating prevents clogging

Application: Suitable for wood processing, hardwood, MDF/HDF, paint sanding, lacquers, plastics, primer, soft/resinous wood and veneer
